PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Prepared daily, weekly, and monthly risk management information and dashboards for senior management and committees, monitoring counterparty credit and liquidity risk limits and KRIs using **SQL** and **Python**.
- Managed the daily CSA process, including administration and communication for collateral calls with external counterparties, ensuring compliance with **credit risk** protocols.
- Analyzed the **liquidity risk** implications arising from new funding strategies and investment products, providing actionable insights to management.
- Performed periodic reviews and monitoring of counterparties from a credit risk perspective, identifying potential exposure changes and recommending mitigation strategies.
- Contributed to major risk projects by developing analytical models and reports, enhancing the agency's core treasury risk systems with **Python** and **SQL**.
- Drafted and presented papers on complex risk issues to a broad range of audiences, including the Enterprise Risk Management Committee, ensuring clear communication of findings.
- Developed and maintained **Power BI** dashboards for operational reporting, aggregating data from multiple sources to provide real-time insights into risk exposures and market trends.

SKILLS

Risk Management – Counterparty Credit Risk, Liquidity Risk, Financial Stability, Risk Methodologies, PFE, VaR, Stress Testing, Credit Risk, Market Risk, Treasury Risk Management

Programming & Scripting – Python, SQL, VBA, R

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

Financial Markets & Products – Global Financial Markets, Bonds, Repos, Loans, Deposits, Swaps, Short-Term Paper

Cloud & Databases – AWS (EC2, S3, Lambda, CloudWatch), PostgreSQL, MySQL, Oracle

Development Tools & Methodologies – Java, Spring Boot, REST APIs, Docker, Linux, Git, Jenkins, Jira, Confluence, Agile, Scrum, CI/CD

PROJECTS

Counterparty Risk Analysis Dashboard (HCL Technologies)

- Developed a **Power BI** dashboard to visualize counterparty credit risk exposures and monitor key risk indicators (KRIs) for a financial services client, consolidating data from multiple relational databases.
- Engineered **Python** scripts to automate the extraction, transformation, and loading (ETL) of transaction data from PostgreSQL and Oracle, reducing manual data preparation time by 40%.
- Implemented **SQL** queries to analyze historical transaction flows and identify patterns indicative of potential credit risk events, supporting proactive risk mitigation efforts.

Liquidity Risk Monitoring System (MSc Applied Project)

- Designed and built a system using **Python** and **pandas** to monitor short-term liquidity positions against regulatory requirements, processing approximately 5,000 data points daily.
- Created interactive visualizations and reports in **Power BI** to present liquidity risk metrics and stress test scenarios to academic supervisors and peers.
- Applied statistical methods, including time-series analysis with **R**, to forecast future liquidity needs and assess the impact of market volatility on cash reserves.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
