PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored and reported on **market risk exposures**, limit utilisation, and **risk appetite metrics** across trading portfolios for a financial-services client, investigating and escalating identified breaches.
- Analysed and attributed **Profit & Loss (P&L;)** by reconciling reported results with underlying positions and market movements, identifying causes for unexpected risk and valuation shifts.
- Produced timely **market risk and P&L; reports** for senior management and governance committees, supported by independent analysis of trading activities.
- Developed Python scripts to automate the generation of **daily risk exception reports**, reducing manual effort by approximately 15 hours per week and improving data accuracy for oversight teams.
- Supported the enhancement and automation of market risk and P&L; reporting by contributing to the development of new **data analytics dashboards** and control mechanisms.
- Collaborated with Front Office, Finance, and Operations teams to provide independent **second-line oversight** and challenge on trading positions and P&L; explanations.
- Containerised enterprise Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing environment setup time by 40%.

SKILLS

Risk Management – Market Risk, Profit & Loss (P&L;), Limit Utilisation, Risk Appetite, Stress Testing, Scenario Analysis, Risk Reporting, Financial Markets, Trading Activities, Traded Products, Equity Securities, Debt Securities, Derivatives, Futures, Swaps, Options, Value at Risk (VaR)

Data Analysis & Reporting – Data Analytics Platforms, Bloomberg, Microsoft Excel, Large Data Sets, Data Visualisation, Business Intelligence, SQL, PostgreSQL, MySQL, Oracle

Programming & Scripting – Python, Java, Spring Boot, REST APIs, VBA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting

Financial Operations – Transaction Monitoring, Reconciliation Workflows, Audit Trails, Regulatory Compliance, GDPR

Project Management & Collaboration – Agile/Scrum, Jira, Confluence, Change Management, UAT Coordination, Stakeholder Management

PROJECTS

Automated P&L; Attribution Service (HCL Technologies)

- Developed a **Python**-based service to automate the reconciliation of reported P&L; against underlying market data and trade positions, processing approximately **50,000 transaction records** daily.
- Designed and implemented REST APIs using **Spring Boot** for seamless integration with existing enterprise systems, enabling real-time data exchange for risk analysis.
- Created interactive **Power BI dashboards** to visualise P&L; attribution drivers and identify discrepancies, providing actionable insights to the financial operations team.

Risk Monitoring Dashboard Enhancement

- Enhanced an existing **Java** application for a financial-services client to include real-time monitoring of market risk limit utilisation and alert generation for potential breaches.
- Wrote complex **SQL** queries against PostgreSQL databases to extract and aggregate risk data, improving the performance of reporting queries by **30%**.
- Collaborated with business analysts to gather requirements and conduct User Acceptance Testing (UAT) for new risk oversight features.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
