HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Authored **Java Spring Boot** microservices for internal tooling, handling approximately 1,500 requests per second during peak operational hours.
- Developed and maintained **Hibernate** entities and complex SQL queries for a financial operations dashboard, ensuring data integrity across relational databases.
- Constructed **JUnit** test suites for Java backend services, achieving 85% code coverage for new feature development and reducing critical bugs by 18%.
- Produced detailed **Electrical Layouts** and **LV & MV Distribution Design** documentation for critical infrastructure projects using **AutoCAD**, supporting the design of power distribution networks.
- Executed **Power Systems Electrical Studies**, including **Load Estimates** and **Cable Sizing Calcs**, applying fundamental engineering principles to system design.
- Generated technical specifications for **transformers** and **instrumentation**, translating engineering requirements into procurement-ready documentation.
- Containerised Java applications using **Docker** and managed deployments on **AWS EC2** instances, streamlining the build and release process for internal tools.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Engineering Software – AutoCAD, EPLAN, Power BI, Tableau

Power Systems – Electrical Layouts, LV & MV Distribution Design, Load Estimates, Cable Sizing Calcs, Protection Coordination, SCADA, Instrumentation

Methodologies – Agile, Scrum

PROJECTS

Industrial Control System Design

- Developed detailed **electrical schematics** and **control system designs** for an industrial automation project, specifying components and interconnections.
- Authored technical documentation and **specifications for RTUs** and associated control hardware, ensuring alignment with project requirements and industry standards.
- Participated in the initial stages of **SCADA system design**, defining I/O requirements and data flow for operational monitoring.

Power Distribution Network Analysis

- Performed **electrical studies** for power distribution networks, including **short circuit studies** and preliminary **protection coordination** analysis.
- Created preliminary **equipment layouts** and single-line diagrams using **AutoCAD** to visualise power flow and component placement for a hypothetical substation project.
- Assisted in generating **load estimates** for proposed power system configurations, contributing to the overall system sizing and design validation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
