PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Acted as primary technical contact for 3 enterprise customers, gathering **feature pipeline** requirements and translating them into **Python** implementations for a cloud ML platform.
- Designed and implemented **REST APIs** in **Java Spring Boot** for cross-service data exchange, including request validation and circuit-breaker patterns, supporting ~3,500 events/sec.
- Containerized **feature-pipeline services** with **Docker** and deployed them to an **EKS** cluster, configuring basic resource limits for predictable rollout.
- Delivered technical presentations and **demos** of cloud platform capabilities to potential customers and internal partners, focusing on **Azure Virtual Desktop** and **Windows 365**.
- Partnered with regional sales managers to develop the **financial business case** (ROI) for complex sales opportunities, aligning technical solutions with customer pain points.
- Managed technical aspects of **RFP/RFI responses**, ensuring accurate and compelling technical proposals for enterprise clients.
- Collected and documented **competitive intelligence** from customer interactions and field events, relaying insights to the engineering (R&D;) teams for future product enhancements.

SKILLS

Cloud Platforms – Microsoft Azure, AWS, Azure Virtual Desktop (AVD), Windows 365, Microsoft Intune

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, FastAPI

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Kubernetes, Jenkins, Git, EKS

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Power Query, DAX

Sales & Technical Enablement – Technical Demos, RFPs, ROI Analysis, Competitive Intelligence, Customer Requirements Gathering, MEDDPICC

PROJECTS

Cloud Platform Deployment Automation (HCL)

- Developed **Python** scripts to automate the provisioning of **AWS EC2** instances and **S3** bucket configurations, reducing manual setup time by **40%**.
- Containerized deployment artifacts using **Docker** and integrated them into **Jenkins** pipelines for consistent CI/CD workflows across development and staging environments.
- Implemented basic monitoring and alerting using **CloudWatch** for deployed services, ensuring timely notification of critical operational issues.

Customer Technical Onboarding & Demo Platform

- Designed and delivered technical demonstrations of cloud-based solutions to prospective enterprise customers, highlighting key differentiators for **Azure Virtual Desktop** and management platforms.
- Gathered technical requirements from customer IT teams during pre-sales engagements, translating complex needs into actionable solution proposals.
- Developed sample integration scripts in **Python** and **Java** to showcase API capabilities for potential client environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
