PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed incident resolution for a large, geographically diverse healthcare estate, focusing on **data, wireless, and telephony technologies** to maintain network infrastructure.
- Assisted with the deployment of **network equipment** across various clinical and non-clinical environments, ensuring minimal disruption to services.
- Executed planned maintenance activities on network infrastructure, contributing to service improvements and proactive problem-solving.
- Provided **customer-focused support** to staff across diverse healthcare settings, ensuring effective communication and timely issue resolution.
- Escalated complex technical issues to specialist colleagues, demonstrating an understanding of when to seek advanced assistance.
- Gained experience with **networking principles** including TCP/IP, switching, and Wi-Fi technologies through hands-on task execution.
- Analyzed system logs and performed shell scripting for routine technical tasks on **Linux** systems within the technical services team.

SKILLS

Networking – TCP/IP, Switching, Wi-Fi, Network Infrastructure

Operating Systems – Linux, Shell Scripting

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch)

DevOps & CI/CD – Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Scripting & Automation – Python, Bash

Enterprise Systems – Jira, Confluence, Dynatrace, Splunk

PROJECTS

Network Infrastructure Upgrade (HCL Technologies)

- Supported the upgrade of network switches and routers across multiple enterprise client sites, ensuring seamless transition with minimal downtime.
- Configured and deployed new Wi-Fi access points in an office environment, improving wireless connectivity for approximately 150 users.
- Assisted in the rollout of new network equipment, including unboxing, basic configuration, and physical installation following site-specific plans.

Linux Server Automation Scripting (HCL Technologies)

- Developed Python scripts to automate log analysis and system health checks for a fleet of 50+ Linux servers, reducing manual effort by 40%.
- Created Bash scripts for routine maintenance tasks such as user account management and file system cleanup, executed via cron jobs.
- Integrated monitoring alerts for critical server metrics using **Splunk** and **CloudWatch**, ensuring proactive identification of potential issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
