HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored and responded to P1/P2 incidents for enterprise Java/.NET applications using **Splunk** and **Dynatrace**, ensuring adherence to strict SLAs for a financial-services client.
- Developed Python scripts to automate ETL processes for scheduled reporting, enhancing data processing efficiency by approximately **15%**.
- Designed and implemented REST APIs using **Java Spring Boot** for cross-service data exchange, incorporating request validation and circuit-breaker patterns.
- Supported the Team Leader in the day-to-day coordination of the Fund Service Centre team, deputising as required and managing workflow across telephony, MS Dynamics, and written enquiry channels.
- Acted as a subject matter expert for partners handling complex, sensitive, and high-risk investor and client queries, providing side-by-side support and case reviews.
- Used available telephony, MS Dynamics, and workflow reporting to monitor service levels and support the effective allocation of daily resources, identifying queue position shifts and aged items.
- Containerised Java Spring Boot applications using **Docker** and deployed to **AWS EC2** instances, improving deployment consistency across development and production environments.

SKILLS

Core Banking & Finance – Transfer Agency, Investor Services, Financial Services Operations, Transaction Monitoring, Reconciliation Workflows

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, MS Dynamics, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a payments operations dashboard for a financial-services client, focusing on improving transaction monitoring and operational alerting for failed payment messages.
- Developed Python scripts to automate data ingestion and transformation for daily reconciliation reports, reducing manual effort by an estimated **8 hours** per week.
- Wrote complex SQL queries across PostgreSQL and Oracle databases for data validation and ad-hoc reporting, supporting business analysts and operations teams.

Investor Query Management System (MSc Project)

- Designed and built a Power BI dashboard to visualize investor query volumes, resolution times, and common issue categories for a simulated Transfer Agency environment.
- Applied data modelling techniques in Power BI to integrate data from multiple sources, enabling drill-down analysis of query trends and identifying areas for process improvement.
- Created interactive reports and DAX measures to track Key Performance Indicators (KPIs) related to service levels and partner performance, presenting findings to MSc stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
