HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided day-to-day **technical support** for enterprise **vulnerability management** and **security platforms**, including Qualys and Wiz.
- Monitored and supported **vulnerability scanning infrastructure**, ensuring proper function of scanners, agents, authentication, and scan schedules.
- Investigated and troubleshot **scanning failures**, connectivity issues, and authentication problems across distributed scanning agents and collectors.
- Maintained **data quality** and reliability by monitoring platform health, security data ingestion, and asset information integrations.
- Supported **cloud security platform** activities within **Microsoft Azure**, assisting with configurations and testing of new security capabilities.
- Developed and maintained **technical documentation**, troubleshooting procedures, and operational **runbooks** for platform support.
- Assisted in containerising internal security tooling using **Docker** and deploying to an **AWS EC2** environment for enhanced stability.

SKILLS

Security Platforms – Qualys, Wiz, Vulnerability Management, Security Configuration Compliance, Cloud Security

Cloud Technologies – Microsoft Azure, AWS (EC2, CloudWatch)

Operating Systems – Windows, Linux

Scripting & Automation – Python, Shell Scripting

Databases – PostgreSQL, MySQL

Tools & Methodologies – Jira, Confluence, Jenkins, Git, Docker

PROJECTS

Enterprise Vulnerability Scanning Platform Enhancement

- Enhanced the core **vulnerability scanning platform** by optimising scan schedules and asset coverage, reducing scan completion times by an average of **18%**.
- Implemented automated data validation scripts in **Python** to ensure accuracy of ingested asset information and vulnerability findings, catching approximately **40%** of potential data errors before upstream processing.
- Developed detailed **runbooks** and troubleshooting guides for common platform issues, used by the operations team to resolve incidents **25%** faster.

Cloud Security Configuration Monitoring

- Built a system to monitor and report on **security configurations** across **Microsoft Azure** resources, identifying over **50** non-compliant settings in the first month.
- Integrated platform alerts with **AWS CloudWatch** and a custom notification service to provide timely updates on configuration drift and security policy violations.
- Wrote **SQL queries** against an internal asset database to correlate security findings with asset criticality for prioritisation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
