PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated onsite fiber deployment activities across multiple data center sites in the EMEA region, acting as the primary technical point of contact for third-party vendors and internal teams.
- Managed day-to-day progress onsite, driving alignment on program priorities, delivery milestones, and risk mitigation plans required to maintain momentum for infrastructure build-outs.
- Translated complex technical and operational inputs into clear, actionable plans and decision points for executive leadership, ensuring stakeholders were aligned on execution plans.
- Developed and refined operational playbooks and templates for fiber deployment and data center infrastructure scaling, enhancing the capability of the wider delivery community.
- Partnered with program managers on executive communication, cross-functional influence, and structured decision-making to unblock technical issues and resolve competing priorities.
- Facilitated technical troubleshooting and issue resolution onsite, diagnosing problems related to network connectivity and infrastructure deployment to minimize delays.
- Containerized core deployment tools and services using **Docker**, enabling consistent execution across different environments and simplifying rollout procedures.

SKILLS

Infrastructure & Deployment – Fiber Deployment, GPU Deployment, Data Center Infrastructure, Network Operations, Network Scaling, Large-Scale Deployments, Mission-Critical Services

Project Management & Coordination – Onsite Vendor Engagement, Third-Party Management, QA/QC, Escalation Point, Executive Communication, Stakeholder Alignment, Risk Mitigation, Decision Making, Program Delivery

Technical Domain – Distributed Systems, Networking Concepts, Data Center Power Infrastructure, MEP Dependencies

Tools & Technologies – Smartsheet, Jira, Asana, Monday.com, MS Project, Primavera P6, Power BI, Tableau

Cloud & Virtualization – AWS, EC2, S3, Lambda, CloudWatch, Docker

PROJECTS

EMEA Data Center Fiber Network Expansion

- Drove the end-to-end deployment of new fiber optic network infrastructure across several data center facilities in the EMEA region, ensuring adherence to project timelines and quality standards.
- Collaborated with external vendors and internal network engineering teams to troubleshoot connectivity issues, optimize cable routing, and validate installation quality.
- Developed detailed progress reports and status updates for senior management, highlighting key achievements, potential risks, and required decisions to ensure timely project completion.

Onsite Infrastructure Deployment Automation

- Engineered Python scripts to automate repetitive tasks in onsite infrastructure deployment, including configuration validation and initial device setup, reducing manual effort by approximately **30%**.
- Containerized key deployment utilities using **Docker**, creating reproducible environments that streamlined the onboarding process for new field engineers.
- Documented deployment procedures and best practices in a shared knowledge base, facilitating knowledge transfer and improving consistency across the deployment team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
