PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed, configured, and maintained **CICS Transaction Server** environments, ensuring high availability for business-critical applications across production and development systems.
- Administered **CICS resource definitions** and system configurations, including transaction programs, programs, and file control, to support application requirements.
- Provided Level 2 and Level 3 support for applications utilizing **CICS services**, diagnosing and resolving complex technical issues with prompt incident resolution.
- Led problem determination and root cause analysis for critical incidents impacting **CICS environments**, collaborating with development teams to implement effective recovery strategies.
- Designed and implemented new technology solutions for **CICS services**, focusing on improving service availability, performance, and operational efficiency.
- Monitored **CICS performance** and system resources using tools like OMEGAMON, tuning parameters to ensure optimal response times and adherence to service levels.
- Developed and maintained **backup, recovery, and business continuity procedures** for CICS environments, ensuring data integrity and rapid restoration capabilities.

SKILLS

Mainframe Systems Programming – CICS Transaction Server, Mainframe Sysplex, JCL, TSO/ISPF, SDSF, RACF, ACF2

CICS Administration – Installation, Configuration, Maintenance, Troubleshooting, Resource Definitions, System Programming

Operations & Support – Incident Resolution, Problem Determination, Root Cause Analysis, Change Management, Release Management, Production Support

Monitoring & Tuning – Performance Monitoring, Capacity Planning, Performance Tuning, OMEGAMON for CICS

Security & Compliance – User Access Controls, Security Implementations, Data Security, Compliance Requirements

PROJECTS

CICS Transaction Server Environment Hardening

- Enhanced the stability and security of a large-scale **CICS Transaction Server** environment by applying maintenance updates and troubleshooting complex system issues.
- Implemented new **CICS resource definitions** and configurations to support the deployment of a critical financial transaction processing application.
- Developed detailed operational runbooks for **production CICS environments**, improving incident response times and standardizing troubleshooting procedures.

Mainframe Application Availability Enhancement

- Analyzed **CICS performance metrics** and system logs to identify bottlenecks, implementing tuning adjustments that reduced average transaction response times by 18%.
- Collaborated with application development teams to resolve complex defects in business-critical applications hosted on **Mainframe Sysplex** environments.
- Supported the implementation of new releases and enhancements for **CICS Transaction Server**, including thorough testing and deployment planning.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
