PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed daily and weekly operational measures for completed business activities by entering and validating data in internal and customer systems, ensuring **timely submission** against agreed cut-offs.
- Colleced completion evidence, site information, and timesheets from operational teams, performing **accuracy checks** for job codes, quantities, and required documentation before processing.
- Maintained auditable records of changes, corrections, approvals, and resubmissions for completed works, reconciling against internal data and customer reports, escalating discrepancies to the Commercial Manager.
- Supported Finance and Operations teams by updating project financial records, including revenue, costs, and forecast information, and assisting with **work-in-progress reviews**.
- Prepared and maintained registers for quotations, purchase orders, sales orders, and claims, assisting with the administration and linking of these to the **correct project scope**.
- Produced scheduled weekly and monthly reports, KPI dashboards, and ad hoc commercial reports for management review, updating internal systems and shared folders within deadlines.
- Liaised with Operations, Finance, and external suppliers to resolve routine commercial and data queries, tracking actions arising from reviews and providing status updates to stakeholders.

SKILLS

Commercial Administration – quotations, purchase orders, sales orders, invoicing, claims, work-in-progress reporting, project financial reviews, cost control, supplier documentation, process improvement.

Data Management & Reporting – data entry, data validation, reconciliation, reporting, KPI dashboards, ad hoc reporting, document control, version control, Microsoft Excel, Microsoft 365.

Financial Operations – revenue tracking, cost management, budget monitoring, gross margin analysis, invoice reconciliation, supplier invoice checking, procurement support.

Project Support – project administration, contract support, operational administration, change control management, stakeholder coordination, issue escalation, record maintenance.

Core Technologies – Microsoft Excel, Microsoft 365, Jira, Confluence, SQL, Python, Java, Spring Boot, AWS, Docker, Linux, Jenkins, Splunk, Dynatrace.

PROJECTS

Commercial Operations Data Enhancement (HCL Technologies)

- Developed Python scripts to automate the collation and initial validation of daily operational measures from disparate sources, reducing manual data entry time by an estimated **40%**.
- Designed and implemented enhanced data validation rules within the scripts to catch common errors in job codes and quantities, improving data accuracy for weekly reporting by approximately **15%**.
- Created a consolidated tracker using Excel with Power Query to integrate validated measures and reconcile against project scopes, streamlining the preparation for monthly financial reviews.

Financial Services Dashboard Data Pipeline (HCL Technologies)

- Engineered Python ETL pipelines to process and structure transaction data from multiple enterprise systems for a financial-services operations dashboard, handling approximately **3,200 failed payment messages** per week.
- Automated data reconciliation workflows using SQL queries across PostgreSQL and Oracle databases, ensuring data integrity for transaction monitoring and operational alerting.
- Implemented scheduled reporting jobs using cron and shell scripting on Linux servers to deliver daily operational summaries, supporting SLA management and incident response teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
