PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed and configured complex metrology systems at customer sites, performing initial diagnostics and troubleshooting to ensure operational quality against specifications.
- Provided on-site technical support for semiconductor manufacturing equipment, resolving hardware and software issues to minimize customer downtime and maintain production flow.
- Interpreted customer requirements for system installations, clarifying technical responsibilities and escalating issues to sales or engineering teams as needed.
- Maintained and troubleshot Windows and Linux operating systems on customer equipment, including network configuration and IP telephony setup.
- Instructed customer technical teams on system operation and basic maintenance procedures, ensuring effective knowledge transfer for ongoing use.
- Managed administrative and technical aspects of assigned field service projects, acting as the primary company liaison with client personnel.
- Developed Python scripts to automate data collection from diagnostic tools, improving the efficiency of log analysis for troubleshooting by approximately 30%.

SKILLS

Field Service – Installation, Diagnostics, Troubleshooting, Repair, On-site Support, Customer Training

Operating Systems – Windows, Linux

Networking – IP Telephony, Wireless Networking

Tools & Technologies – Metrology Tools, DVM, Handy Tooling, Microsoft Office

Languages – Python

PROJECTS

Automated Metrology Data Collection and Analysis

- Developed Python scripts to extract and aggregate data from specialized metrology equipment logs, streamlining the data gathering process for field service engineers.
- Implemented data validation checks within the scripts to ensure accuracy and completeness of collected information, reducing data-related troubleshooting time by 20%.
- Created basic reporting mechanisms to highlight key system performance indicators derived from the collected data, aiding in proactive maintenance identification.

Customer System Installation and Configuration

- Configured and installed complex enterprise systems at client locations, ensuring all hardware and software components met specified performance benchmarks.
- Documented installation procedures and common troubleshooting steps for new system deployments, contributing to an internal knowledge base for faster issue resolution.
- Collaborated with customer IT teams to integrate new systems into their existing network infrastructure, managing IP addressing and access control requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
