PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Troubleshot and resolved complex API failures and integration challenges for enterprise customers, providing end-to-end ownership through log analysis and issue reproduction.
- Provided technical guidance and support to customers operating at massive scale, ensuring they maximized value from AI platform deployments and resolved production incidents.
- Partnered closely with Engineering teams to troubleshoot, resolve, and proactively prevent recurring technical issues, leveraging scripting and AI capabilities for operational improvements.
- Developed Python scripts and automated workflows to enhance internal tooling and streamline operational tasks, reducing manual effort in customer issue resolution.
- Became a trusted expert on AI platform products, serving as a go-to resource for complex technical issues and translating customer needs into actionable feedback for Product teams.
- Designed and implemented scalable improvements for support operations, identifying opportunities for automation and AI-powered workflows to increase team efficiency.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, configuring **Jenkins** pipelines for automated builds and deployments.

SKILLS

AI/ML Tools – OpenAI API, ChatGPT, Codex, LangChain, RAG, Vector Databases, Prompt Engineering

Programming Languages – Python, Java, SQL, Bash

Cloud Platforms & Services – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools – Docker, Kubernetes, Git, Jenkins, Jira, Confluence

Databases – PostgreSQL, MySQL, Oracle

Frameworks & Libraries – Spring Boot, Flask, FastAPI, pandas, NumPy, scikit-learn

PROJECTS

AI Platform Customer Integration Support

- Provided direct technical support to enterprise clients integrating with an AI platform, troubleshooting API authentication errors and data pipeline issues.
- Developed **Python** scripts to automate log analysis and diagnostics for common integration problems, reducing average resolution time by **20%**.
- Collaborated with customer engineering teams to onboard them onto the platform, delivering tailored guidance and resolving blockers to successful adoption.

Automated Observability Dashboard

- Engineered a **Python**-based data pipeline to aggregate logs and metrics from various AI services into a centralized data store.
- Built interactive dashboards using **Power BI** to visualize system health, API error rates, and customer usage patterns, enabling faster incident detection.
- Implemented scheduled reporting with **SQL** queries against the aggregated data, providing weekly operational summaries to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
