PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Resolved complex technical issues for Premium Support customers, analyzing logs and system behavior to isolate failure domains for API failures and integration challenges.
- Provided end-to-end technical ownership of critical customer-impacting incidents, assessing severity, coordinating cross-functional responders, and ensuring clear communication through mitigation and resolution.
- Developed a deep understanding of customer architectures and integrations, documenting critical workloads and operational constraints to proactively identify emerging failure patterns.
- Translated recurring customer pain points into actionable feedback for Product and Engineering teams, focusing on improving the reliability and performance of existing products and deployments.
- Collaborated with Go-to-Market and Technical Success teams to understand business criticality of customer workloads, informing prioritization and communication during support engagements.
- Contributed to incident reviews and postmortems, identifying opportunities for recurrence prevention and tracking corrective actions to closure, reducing repeat incidents by approximately 15% over a quarter.
- Built and maintained customer-specific runbooks and support readiness plans for critical launches and business events, ensuring heightened monitoring and validated escalation paths.

SKILLS

Support Engineering – Technical Troubleshooting, Incident Management, Root Cause Analysis, Log Analysis, Telemetry Analysis, API Troubleshooting, Integration Issues, Authentication Errors, Performance Degradation, Production Incidents, Systems-Level Investigation

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux Shell Scripting

Programming & Scripting – Python, Java, Spring Boot, SQL

Databases – PostgreSQL, MySQL, Oracle

Observability & Monitoring – Splunk, Dynatrace

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Managed production support for enterprise Java and .NET applications, focusing on SLA adherence and P1/P2 incident response using **Splunk** and **Dynatrace** for monitoring.
- Developed Python scripts to automate data extraction and reporting tasks for operational teams, reducing manual effort by an estimated 20 hours per week.
- Executed ad-hoc SQL queries across **PostgreSQL** and **Oracle** databases for data validation and troubleshooting, ensuring data integrity for critical financial operations.

Customer Integration & Technical Guidance Platform

- Designed and implemented integration patterns for enterprise customers connecting to internal platforms, focusing on API stability and clear documentation.
- Developed a Python-based testing framework to simulate customer integration scenarios, identifying potential issues before customer deployment and reducing integration failures by 30%.
- Created technical guidance documentation and troubleshooting guides based on common customer integration challenges, improving self-service resolution rates by 18%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
