PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided expert technical support for enterprise EDI, Managed Services, and Messaging solutions, troubleshooting complex issues for global clients.
- Managed production monitoring and incident response for critical business integrations, adhering to strict SLAs and ensuring service continuity.
- Developed Python scripts to automate ETL processes and generate scheduled reports for operational oversight, reducing manual effort by approximately 30%.
- Collaborated with cross-functional teams to resolve production incidents, perform root cause analysis, and implement corrective actions.
- Mentored junior support specialists by sharing technical knowledge, guiding troubleshooting efforts, and contributing to internal knowledge base articles.
- Analyzed and resolved issues within Linux command-line environments, leveraging shell scripting for log analysis and system diagnostics.
- Containerized Java Spring Boot applications using Docker, deploying them to AWS EC2 instances and managing basic configurations.

SKILLS

Core Technologies – EDI, XML, Linux, FTP, OFTP, AS2, Networking Protocols

Programming & Scripting – Python, Java, Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases – SQL, PostgreSQL, MySQL, Oracle

Support & Operations – Incident Response, Production Monitoring, SLA Management, Change Management, Knowledge Management

Languages – English, French

PROJECTS

Enterprise Messaging Integration Support (HCL Technologies)

- Supported a financial-services client's payments operations dashboard, focusing on transaction monitoring and alerting for failed message flows.
- Managed production environments with a focus on audit trails and regulatory compliance, contributing to incident triage and post-implementation support.
- Developed Python automation scripts for data validation and reconciliation workflows, improving data integrity checks across integrated systems.

Linux-Based Message Gateway Configuration

- Configured and maintained Linux servers hosting critical messaging gateway services for enterprise clients.
- Managed network protocols including FTP and AS2 for secure data exchange between business partners.
- Troubleshot connectivity issues and performance bottlenecks, ensuring reliable data transmission for high-volume transactions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
