HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed complex datasets for medical cost savings teams, identifying opportunities through detailed data research and extraction to support payment integrity concepts.
- Extracted and manipulated large data sets using **SQL** and **Microsoft Excel** to meet specific data requirements for claims analysts and ideators, ensuring accuracy in all analyses.
- Collaborated with medical cost savings teams to perform data analysis on claims processing and claims analysis functions, identifying potential cost-saving measures.
- Supported data research projects by extracting and cleansing data from various sources, working cross-functionally with other data teams to troubleshoot and resolve data anomalies.
- Developed **Python** scripts to automate data extraction and transformation processes, improving efficiency for reporting and analysis tasks.
- Managed and validated data accuracy for numerous analysis projects, demonstrating strong attention to detail and time management skills in a hybrid work model.
- Containerized data analysis tools and scripts using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Databases – SQL, PostgreSQL, MySQL, Oracle

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Business Intelligence

Programming Languages – Python, Java, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Technologies – Microsoft Excel (Pivot Tables, VLOOKUP, Macros), Jira, Confluence, Splunk, Dynatrace, Pandas, NumPy, Scikit-learn, Flask, FastAPI

Domain Knowledge – Claims Processing, Claims Analysis, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, Regulatory Compliance

PROJECTS

Claims Data Analysis and Cost Savings Identification

- Developed **SQL** queries to extract and aggregate claims data from a large enterprise database, focusing on identifying patterns indicative of potential payment inaccuracies.
- Created interactive **Power BI** dashboards to visualize key claims metrics and cost-saving opportunities for medical cost savings teams, enabling clearer decision-making.
- Collaborated with business analysts to refine data requirements and troubleshoot data anomalies encountered during the analysis of payment integrity concepts.

Automated Data Pipeline for Payment Integrity

- Engineered a **Python**-based data pipeline to automate the extraction, transformation, and loading (ETL) of claims transaction data from multiple sources.
- Implemented data validation checks within the pipeline using **Pandas** to ensure the accuracy and integrity of processed data before it was used for analysis.
- Integrated the automated pipeline with **AWS S3** for efficient storage of processed datasets, reducing manual data handling efforts by approximately 40%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
