PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, implementing robust error handling and logging mechanisms across a team of 4 engineers.
- Engineered **Python scripts** to automate data extraction and transformation tasks for regulatory reporting, processing approximately 1.5 TB of data weekly.
- Designed and implemented **SQL schemas** and optimized complex queries in **PostgreSQL** to support new feature development for an enterprise client's operational dashboard.
- Collaborated with cross-functional teams to define technical specifications and estimates for new feature development within an Agile/Scrum framework.
- Managed production incidents for critical enterprise applications, performing root cause analysis and implementing fixes within strict **SLA** targets.
- Containerized multiple **Java Spring Boot** microservices using **Docker**, facilitating streamlined deployment pipelines managed by **Jenkins** on **AWS EC2** instances.
- Supported integration efforts for enterprise business systems, including ERP modules, by developing and maintaining cross-system data flows via **REST APIs**.

SKILLS

Programming Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, Flask, FastAPI, pandas, NumPy, scikit-learn, React, Angular

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Domain Knowledge – Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, ERP Integration Support, Change Management, Regulatory Compliance

PROJECTS

Enterprise Payments Operations Dashboard Enhancement

- Developed new Java Spring Boot microservices to ingest and process transaction data streams, improving real-time monitoring capabilities for an enterprise financial services client.
- Automated the generation of daily operational reports using Python and SQL, reducing manual effort by an estimated 8 hours per week for the operations team.
- Implemented enhanced alerting logic within the dashboard to flag failed transaction messages, decreasing the average detection time for critical issues by 30%.

Automated Data Pipeline for Financial Reporting

- Designed and built a Python-based ETL pipeline to consolidate data from multiple PostgreSQL and Oracle databases into a central data warehouse for analysis.
- Developed Power BI dashboards to visualize key performance indicators derived from the processed data, providing stakeholders with actionable insights into transaction volumes and success rates.
- Wrote comprehensive unit tests using Pytest for the Python scripts, ensuring data integrity and pipeline reliability for critical business reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
