PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the entire Computerised Systems Validation (CSV) lifecycle for multiple GxP systems, from strategy definition to final documentation approval.
- Prepared and executed validation protocols and associated documentation for GxP Computerised Systems, ensuring compliance with regulatory standards.
- Administered GAMP lifecycle processes across concurrent projects, acting as a process champion for internal quality management system improvements.
- Supported system operations by executing Periodic Reviews, Change Controls, and Audit Trail Reviews within GxP environments.
- Developed and maintained client site expertise, enhancing relationships and efficiency between Orise and respective client organizations.
- Integrated and interacted effectively within customer environments to deliver robust GxP Computerised Systems validation strategies.
- Contained production incidents for enterprise Java applications, performing root cause analysis using **Splunk** and **Dynatrace**, and resolving critical P1/P2 escalations within SLA targets.

SKILLS

CSV & Validation – GxP Computerised Systems, Validation Protocols, Periodic Reviews, Change Controls, Audit Trail Reviews, GAMP lifecycle, Life Sciences sector

Quality Management – Quality Management System Processes, CAPA, Deviation, Process Champion, Continual Improvement

Project Management – CSV activities management, Client Relationships, Project Teams, Documentation Generation

Technical Skills – Microsoft Office Suite, Linux, Shell Scripting

Core Technologies – Java, Spring Boot, Python, SQL, PostgreSQL, AWS, Docker, Jenkins, Jira, Confluence, Splunk, Dynatrace

PROJECTS

GxP Systems Validation Framework (HCL Technologies)

- Designed and implemented a standardized framework for GxP Computerised Systems Validation (CSV) activities at a financial services client, encompassing protocol generation, execution, and final reporting.
- Developed reusable templates for validation documentation, including Test Plans, Test Cases, and Summary Reports, reducing average documentation time by **~20%** for new projects.
- Collaborated with client operations teams to gather requirements for system validation, ensuring alignment with GxP compliance and business objectives.

Automated Production Monitoring & Alerting (HCL Technologies)

- Engineered Python scripts to automate data ingestion and analysis from production logs using **Splunk** for a financial services operations dashboard, identifying and alerting on transaction processing anomalies.
- Configured real-time alerting rules within **Dynatrace** to monitor application health and performance, reducing manual oversight by operations staff by **~4 hours** per week.
- Managed incident response for critical production issues, performing root cause analysis and implementing immediate fixes to maintain system stability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
