PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed daily product availability and stock levels for promotions, serving as the Commercial team's primary liaison with Customer Service and Supply Chain departments.
- Developed consolidated periodic sales plans by partnering with National Account Managers to generate accurate forecasts by SKU and customer.
- Coordinated customer activations, including sampling and point-of-sale planning, by acting as the lead contact for aligning commercial plans with Marketing and Trade Marketing teams.
- Gathered and analyzed customer and competitor data, maintaining comprehensive market pricing and promotional trackers to inform strategic decisions.
- Supported the Commercial Director and National Account Managers by generating sales reports and fulfilling ad hoc data requests, contributing to key account management.
- Contributed to the preparation of client presentations by compiling sales data and market insights, facilitating value-adding discussions with the Category Management team.
- Containerized and deployed Java Spring Boot applications to AWS EC2 instances using Docker, managing CI/CD pipelines with Jenkins for streamlined code releases.

SKILLS

Data Analysis & Reporting – Power BI, Microsoft Excel, PowerPoint, DAX, Data Modelling, Market Pricing, Promotional Trackers, Customer Data Analysis.

Commercial Operations – Sales Forecasting, SKU Analysis, Stock Management, Product Availability, Customer Service Liaison, Supply Chain Coordination, Field Sales Support.

Business Intelligence – Power BI, Tableau, Data Visualization, Business Stakeholder Reporting, Ad Hoc Reporting.

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs, Shell Scripting.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

PROJECTS

Sales Performance Dashboard Enhancement (HCL Technologies)

- Developed interactive **Power BI dashboards** to visualize key sales metrics and promotional performance for enterprise clients, enabling faster data-driven decisions.
- Engineered **Python scripts** to automate the aggregation of disparate sales data sources, reducing manual reporting time by approximately **40%**.
- Implemented **DAX measures** and Power Query transformations to refine data models, ensuring data accuracy and consistency for over **15** distinct reporting views.

Automated Inventory & Order Tracking System (HCL Technologies)

- Built a **Java Spring Boot** application with **PostgreSQL** to track inventory levels and process order data, integrating with existing enterprise systems via **REST APIs**.
- Developed **SQL queries** and stored procedures for efficient data retrieval and validation, supporting reconciliation workflows and reducing data discrepancies by **~20%**.
- Designed system alerts for low stock notifications and order fulfillment delays, improving operational responsiveness for the financial-services client's dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
