PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated evidence collection for **GxP regulatory inspections** and internal quality audits, working with IT system SMEs to obtain accurate documentation within deadlines.
- Analysed **quality and audit data**, identifying trends and potential compliance gaps to inform remediation strategies for a regulated pharmaceutical environment.
- Built and enhanced **Power BI dashboards** and reports to visualize audit activity, outstanding requests, and improvement initiatives for weekly status reporting.
- Supported mock audits and inspection readiness activities by ensuring IT validation documentation and data integrity requirements were met.
- Developed **Python scripts** to automate data extraction and analysis for audit reporting, streamlining the process of identifying compliance gaps.
- Maintained and configured existing **workflows and data capture processes**, including routing and forms, to improve audit support efficiency.
- Containerised a Python-based reporting service with **Docker** and deployed to an AWS EC2 instance, ensuring consistent execution for audit data processing.

SKILLS

Quality Assurance & Validation – GxP Systems, IT Validation, Data Integrity, Audit Support, Regulatory Inspections, Compliance

Data Analytics & Reporting – Power BI, DAX, Data Analysis, Trend Identification, Reporting, Data Warehousing

Programming & Scripting – Python, SQL, Shell Scripting

Cloud & DevOps – AWS, EC2, Docker, CI/CD, Jenkins, Git

Enterprise Systems & Tools – Jira, Confluence, Smartsheets, Dynatrace, Splunk

PROJECTS

GxP Compliance Dashboard Enhancement (HCL Technologies)

- Developed interactive **Power BI dashboards** to track key GxP compliance metrics and audit findings for a financial services client, improving visibility for operational teams.
- Wrote complex **SQL queries** against PostgreSQL databases to extract and aggregate data for reporting on transaction monitoring and reconciliation workflows.
- Automated data refresh and report distribution using Python scripts and Jenkins pipelines, reducing manual effort by approximately **15%** per reporting cycle.

Audit Evidence Automation Tool (HCL Technologies)

- Created a **Python application** to automate the collection and organization of audit evidence from various internal systems, significantly reducing retrieval times for audit requests.
- Integrated with **Jira and Confluence** APIs to gather relevant documentation and track the status of evidence requests, improving coordination across teams.
- Designed a user-friendly interface for the tool, enabling non-technical users to submit evidence requests and track their progress, supporting audit readiness activities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
