HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** applications, designing and implementing **REST APIs** for core business functions on an enterprise platform.
- Engineered data processing pipelines using **Python** and **pandas** to automate ETL workflows, reducing manual data aggregation effort by approximately **40%** for scheduled reports.
- Managed production support for critical enterprise applications, performing **SLA management** and leading **P1/P2 incident response** with a focus on rapid root cause analysis and resolution.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements for new feature development and system enhancements within an **Agile/Scrum** framework.
- Executed complex **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation, ad-hoc analysis, and to support schema evolution for integrated business systems.
- Containerized Java applications using **Docker** and managed deployments on **AWS EC2** instances, improving deployment consistency and reducing environment setup time.
- Contributed to the design and maintenance of pricing benchmarks and analytical models for **Protection deals**, ensuring accuracy and adherence to actuarial standards.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Methodologies – MS Excel, Jira, Confluence, Agile/Scrum, Splunk, Dynatrace

Domain Specific – Actuarial Pricing, Life & Health Reinsurance, Risk Modelling, Data Analysis, Business Intelligence

PROJECTS

Actuarial Pricing Model Enhancement (HCL Technologies)

- Developed a Python-based analytical tool to process and analyze large datasets of in-force policy information, enhancing the evaluation of pricing assumptions for **Protection products**.
- Implemented statistical analysis and regression techniques in **R** to refine pricing benchmarks, contributing to a more accurate assessment of risk for new treaty business.
- Collaborated with senior actuaries to integrate new data sources and update model parameters, ensuring alignment with evolving market dynamics and client needs.

Enterprise Systems Integration & Reporting

- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate data exchange between core ERP modules and a financial operations dashboard, improving data consistency across systems.
- Automated the generation of complex operational reports using **Python scripting** and **SQL**, delivering key performance indicators to stakeholders on a weekly cadence.
- Managed change control processes for system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support for integrated enterprise platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
