PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and deployed **AVEVA System Platform**, **OMI**, and **InTouch** solutions across multiple global manufacturing sites, ensuring standardisation and template adherence.
- Developed and maintained integration mechanisms between **PLCs**, **System Platform**, and **MES layers**, including **SQL-based data handling** and validation for reliable data exchange.
- Supported global migration and standardisation efforts for **AVEVA System Platform** implementations, contributing to a consistent OT architecture across diverse facilities.
- Collaborated with system integrators and vendors to ensure new OT solutions aligned with global standards and **cybersecurity requirements**, adhering to **GAMP principles**.
- Provided technical governance for OT projects, ensuring compliance with specifications and industry best practices for **automation** and **food safety**.
- Assisted in developing and maintaining **OT standards**, documentation, and approved design patterns for global rollout and lifecycle sustainment.
- Managed incident response and troubleshooting for **Operational Technology platforms** across global sites, contributing to a **~15% reduction** in critical operational alerts through proactive monitoring.

SKILLS

AVEVA Platforms – AVEVA System Platform, OMI, InTouch, InBatch, MES integrations

Industrial Automation – PLCs, SCADA, Operational Technology (OT), GAMP principles

Data Management – SQL, data handling, data validation, industrial environments

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Programming & Scripting – Java, Spring Boot, Python, REST APIs

Observability & Support – Splunk, Dynatrace, incident management, troubleshooting

PROJECTS

Global MES Integration for Manufacturing Execution

- Engineered integration between **automation layers (PLCs)** and enterprise systems using **SQL** for data transfer and validation, supporting a critical manufacturing client.
- Configured and deployed **AVEVA System Platform** components to facilitate seamless data flow for MES batching processes, improving operational visibility by approximately **20%**.
- Developed technical documentation and training materials for site engineering teams on the new integration standards, enabling successful operational handover.

OT Cybersecurity Hardening Initiative

- Implemented security enhancements for **Operational Technology** systems, focusing on secure architecture and access control alignment with corporate standards for a key industrial partner.
- Contributed to patching strategies and vulnerability management for **AVEVA platforms**, reducing potential security risks by an estimated **18%** across monitored environments.
- Collaborated with IT and security teams to define and enforce OT cybersecurity readiness protocols for global deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
