PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported annual budget, periodic forecasting, and long-range planning processes across group and project companies, developing integrated financial models.
- Prepared monthly management reporting, including variance analysis and performance commentary, explaining key business drivers to finance and operational stakeholders.
- Monitored financial and operational KPIs across renewable energy assets, contributing to liquidity planning and funding analysis.
- Partnered with project, commercial, and asset management teams to gather inputs and challenge assumptions, improving forecast accuracy by **~15%**.
- Improved reporting processes and data quality by implementing enhanced controls within finance systems and business intelligence tools.
- Produced concise analysis and presentation materials for senior management and boards, supporting ad hoc commercial and strategic analysis.
- Developed automated data extraction scripts in **Python** from disparate sources into a central data lake, reducing manual data compilation time by **~30%**.

SKILLS

Financial Planning & Analysis – Budgeting, Forecasting, Long-range Planning, Variance Analysis, Financial Modelling, Scenario Analysis, KPI Monitoring, Investment Analysis, Business Case Development

Data Analysis & Reporting – Microsoft Excel (Advanced), Power BI, Tableau, Data Visualisation, Management Reporting, Stakeholder Communication

Finance Systems & Tools – ERP Systems, Finance Systems, Business Intelligence Tools, Power Query, DAX

Core Finance – Financial Accounting, Management Accounting, Commercial Finance, Audit, Transaction Services, Project Finance

Domain Knowledge – Renewable Energy, Energy Sector, Infrastructure Projects, Project-Based Businesses

PROJECTS

Financial Planning & Analysis Dashboard Development

- Designed and implemented an interactive **Power BI** dashboard for financial performance tracking, consolidating data from ERP systems and operational logs.
- Developed complex **DAX** measures to calculate key performance indicators (KPIs) such as project ROI, cash flow variance, and budget adherence, improving data accessibility for 8 finance team members.
- Automated ETL processes using **Power Query** to ingest and transform financial data, reducing manual reporting effort by approximately **20%**.

Python Scripting for Financial Data Automation

- Created **Python** scripts to automate the extraction and preliminary analysis of financial transaction data from legacy systems, supporting reconciliation workflows.
- Applied **pandas** and **NumPy** for data manipulation and cleaning, preparing datasets for import into financial modelling tools and reducing data preparation time by **~25%**.
- Developed scheduled reporting scripts that generated summary statistics and identified anomalies for review by the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
