PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and delivered technical integrations for enterprise customers, translating complex requirements into actionable solutions using **REST** and **GraphQL** APIs, accelerating customer value realization by an average of **15%**.
- Developed and maintained reusable integration templates and SDKs, improving delivery consistency and reducing implementation time for new customer integrations by approximately **20%**.
- Collaborated with Product and Engineering teams to identify integration trends and influence roadmap priorities, leading to the enhancement of two key platform capabilities.
- Mentored junior integration specialists on programming best practices for API development and troubleshooting, contributing to a **10%** improvement in team's first-call resolution rate.
- Built and troubleshot **SSO** configurations and API integrations, leveraging **SOAP**, **webhooks**, and **JSON** data structures to connect disparate systems.
- Contributed to technical documentation and knowledge-sharing initiatives, creating standardized guides for integration patterns that reduced onboarding time for new team members by **3 days**.
- Containerized integration microservices using **Docker** and deployed them to a cloud environment, ensuring scalable and reliable operation on **AWS**.

SKILLS

API Ecosystems – REST, GraphQL, SOAP, Webhooks

Data Structures – JSON, XML

Programming Languages – Python, Java, Node.js

Cloud & DevOps – AWS, Docker, SSO, SAML, SCIM, OAuth

Integration Tools – Workato, Zapier, Make

Methodologies – Agile, Scrum

PROJECTS

Customer HRIS Integration Framework (HCL Technologies)

- Developed a Python-based framework for integrating with various HRIS systems, enabling customers to automate employee data synchronization.
- Implemented robust error handling and logging mechanisms within the integration framework, reducing manual intervention by **30%** for common data discrepancies.
- Designed and documented API contracts for the integration framework, facilitating easier adoption by both internal teams and external system developers.

Automated API Testing Suite (HCL Technologies)

- Built an automated testing suite using **Python** and **Pytest** to validate API endpoints for customer integrations, covering **REST** and **SOAP** services.
- Integrated the testing suite into a **Jenkins** CI/CD pipeline, enabling automated regression testing on every code commit and reducing manual testing effort by **40%**.
- Generated detailed test reports and failure analysis, accelerating the defect resolution cycle for integration-related issues by an average of **2 days**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
