PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported senior architects by preparing and maintaining detailed architecture documentation, including technical records and operational handover materials for a large-scale healthcare technology transformation programme.
- Assisted in translating business requirements into technical solution concepts and designs, coordinating with cross-functional teams to ensure alignment with architectural standards and project goals.
- Contributed to the development and maintenance of architecture processes, standards, and governance activities, ensuring adherence to established methodologies and best practices.
- Tracked progress against architecture deliverables, identifying and escalating risks, issues, and dependencies to senior team members to maintain project timelines.
- Managed interdependencies across multiple technology workstreams and related programmes, facilitating communication and collaboration to mitigate potential conflicts.
- Prepared and delivered clear, concise presentations on technical solutions and architectural concepts to both technical and non-technical stakeholders.
- Containerised Java Spring Boot services using **Docker** and deployed them to an **AWS EC2** environment, configuring basic resource limits for predictable rollouts.

SKILLS

Architecture – IT architecture methodologies, technical solutions design, architectural diagrams, solution concepts, architecture documentation, governance activities, standards, processes

Project Management & Tools – Jira, Confluence, Visio, scheduling, reporting, tracking progress, risk management, issue management, dependency management

Communication & Collaboration – Verbal communication, written communication, stakeholder engagement, vendor management, cross-functional teams, presentations

Technical Skills – Java, Spring Boot, REST APIs, SQL, PostgreSQL, MySQL, Oracle, Python, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins, Splunk, Dynatrace

Data & Analytics – Power BI, Tableau, R, pandas, NumPy, scikit-learn, DAX, data modelling, data warehousing, statistical methods

PROJECTS

Healthcare Digital Transformation Architecture Blueprint

- Developed detailed architecture diagrams and documentation for a major digital healthcare initiative, mapping business requirements to technical solution concepts.
- Collaborated with senior architects and technical teams to define system integrations and data flows across various healthcare platforms using **Java Spring Boot** and **PostgreSQL**.
- Prepared operational handover materials and contributed to the maintenance of architecture standards for the ongoing transformation programme.

Cloud-Native Application Deployment Pipeline

- Designed and implemented a CI/CD pipeline using **Jenkins** and **Git** for automated deployment of backend services to **AWS EC2** instances.
- Containerised microservices with **Docker**, ensuring consistent environments from development to production, supporting a team of 4 engineers.
- Wrote shell scripts for automated log analysis and system monitoring on Linux servers, reducing manual troubleshooting time by approximately **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
