PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored daily financial data integrity controls across investment and risk systems, identifying and researching production issues by analyzing trends and partnering with relevant teams for resolution.
- Supported reporting requests and ad hoc inquiries using **iRisk**, **Excel**, and **Tableau**, contributing to the quality and accuracy of data for investment risk and business decision-making.
- Assisted in streamlining existing processes and testing new enhancements for investment operations data, collaborating with team members to improve data quality controls.
- Developed Python scripts to automate data extraction and transformation tasks for operational reporting, reducing manual effort by approximately 15% for the data integrity team.
- Performed data validation and ad-hoc querying using **SQL** across PostgreSQL and Oracle databases to support data quality checks for financial instruments.
- Contributed to the development of a financial services dashboard by implementing Java Spring Boot REST APIs for data ingestion and cross-system integration.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, ensuring reliable operation within a production environment.

SKILLS

Data Integrity & Reporting – iRisk, Tableau, Cognos, Excel, Financial Instruments, Investment Data, Financial Reporting, Data Quality Controls

Data Analysis & SQL – SQL, PostgreSQL, Oracle, MySQL, Data Validation, Ad Hoc Querying, Trend Analysis

Programming & Automation – Python, Java, Spring Boot, REST APIs, Pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Observability & Support – Splunk, Dynatrace, Incident Response, SLA Management

PROJECTS

Investment Data Quality Dashboard (HCL Technologies)

- Developed a **Java Spring Boot** application to ingest and process financial instrument data, including prices, yields, and ratings, from multiple upstream systems.
- Implemented automated data validation checks using **SQL** against **PostgreSQL** to ensure accuracy and completeness, flagging over 500 discrepancies per week for review.
- Designed and built interactive visualizations in **Power BI** to present key data quality metrics and trends to operations teams, enabling faster identification of data issues.

Python ETL for Financial Reporting (HCL Technologies)

- Engineered Python scripts to automate the extraction, transformation, and loading (ETL) of transaction data from operational databases into a data warehouse for reporting.
- Integrated **pandas** and **NumPy** for efficient data manipulation and analysis, processing approximately 2 million records weekly.
- Wrote unit tests using **pytest** to ensure the reliability and correctness of the data pipelines, achieving over 90% code coverage.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
