PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Owned and executed the monthly accrual process within **Workday**, encompassing data validation, reconciliation, and issue resolution to ensure timely and accurate results for Compensation programs.
- Supported and enhanced **Workday Compensation** processes through configuration adjustments, rigorous testing, and production support activities in collaboration with cross-functional teams.
- Led business analysis efforts for compensation-related projects, translating requirements into actionable plans and coordinating testing activities with technology partners for solution delivery.
- Developed and delivered key reporting and metrics within **Workday** and other platforms to support business operations, compensation program compliance, and strategic decision-making.
- Partnered across People Team, Finance, Payroll, and external vendors to identify opportunities for process improvement, strengthen controls, and enhance operational effectiveness.
- Conducted complex root cause analysis across multiple systems and data sources to resolve issues within critical HR and compensation workflows, driving process optimization initiatives.
- Containerized Java Spring Boot services for a financial-services operations dashboard, deploying to **AWS EC2** instances managed via **Jenkins** pipelines.

SKILLS

HR Systems – Workday Compensation, Enterprise HR Systems

Business Analysis – Requirements Gathering, Process Management, Business Analysis, Stakeholder Management, Root Cause Analysis, UAT

Data Analysis & Reporting – Data Validation, Reconciliation, Reporting, Metrics, Financial Reporting, Business Intelligence, Cognos, Power BI

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, AWS, Docker, Linux, Git, Jenkins

Financial Operations – Compensation Programs, Payroll, Financial Accrual, Reconciliation, Accounting Support

PROJECTS

Workday Compensation Process Enhancement

- Spearheaded the enhancement of Workday Compensation processes by gathering detailed requirements from HR and Finance stakeholders for a new bonus payout module.
- Developed and executed comprehensive test plans for the new bonus module within Workday, identifying and resolving 15+ critical defects prior to production rollout.
- Created automated reports using **Workday reporting** capabilities to track bonus payout accuracy and timeliness, reducing manual reconciliation efforts by approximately 40%.

Financial Operations Dashboard - Transaction Monitoring (HCL Technologies)

- Developed and maintained Java Spring Boot REST APIs for a financial-services operations dashboard, processing transaction data and providing real-time status updates.
- Implemented automated Python scripts to ingest and transform operational data from multiple sources, feeding into the dashboard for reconciliation workflows.
- Managed production support for the dashboard, responding to P1/P2 incidents and performing root cause analysis on failed transaction messages using **Splunk** and **Dynatrace**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
