PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **people analytics** and operational reporting solutions for talent, compensation, and payroll processes using **SQL** and **Power BI**.
- Partnered with stakeholders across People Operations, Technology, and COE teams to gather reporting requirements and translate business questions into actionable **reporting solutions**.
- Analyzed **employee and workforce data** to identify trends, validate results, and provide insights that improved decision-making for HR leadership.
- Supported reporting modernization efforts by expanding **self-service capabilities** and reducing manual reporting processes, enhancing data accessibility for global teams.
- Investigated and resolved reporting issues, ensuring accuracy and data quality for **workforce-related** reports and dashboards.
- Created scalable reporting solutions that supported **organizational** and trended data analysis, moving away from one-time manual outputs.
- Managed the full lifecycle of reporting development, from initial requirements gathering and data validation through to final stakeholder sign-off and deployment.

SKILLS

HR Systems & Platforms – Workday Reporting, Prism, Discovery Boards, HR Analytics Platforms

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Reporting

Programming & Scripting – Python, SQL, R, RStudio

Cloud & Data Services – AWS, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Git, Jenkins, Splunk, Dynatrace

Core Concepts – Data Governance, Reporting Controls, Data Quality, Workforce Trends, Organizational Data, Talent Analytics, Compensation Reporting, HR Operations

PROJECTS

Workforce Analytics Dashboard for HR Operations

- Developed an interactive **Power BI** dashboard to visualize key workforce metrics including headcount, turnover, and compensation trends for a global HR team.
- Engineered **ETL processes** using Python and SQL to extract, transform, and load data from multiple HR systems into a centralized data mart for reporting.
- Implemented **DAX measures** and data models within Power BI to support complex analytical queries and provide actionable insights to HR stakeholders.

Employee Data Quality and Reporting Automation

- Automated the generation of weekly employee status reports using **Python scripting**, reducing manual effort by approximately 15 hours per week.
- Designed and implemented validation rules using **SQL** to identify and flag data inconsistencies in employee records, improving overall data accuracy by ~8%.
- Collaborated with the People Operations team to define data quality standards and integrate automated checks into the existing reporting workflow.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
