PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Partnered with People Team and Global Technology stakeholders to gather, clarify, and document business requirements for integration solutions and employee data analysis needs, translating them into actionable technical specifications.
- Assisted in evaluating the impact of system changes on upstream/downstream integrations and reporting outputs, identifying potential risks and dependencies for cross-system data flows.
- Supported integration delivery activities, including data mapping, validation, and user acceptance testing (UAT) for employee data synchronization across HRIS and related platforms.
- Analyzed integration files and recurring data issues, identifying trends and root causes to improve data quality and operational efficiency for the People Team.
- Performed data validation and reconciliation for reporting and audit activities, ensuring accuracy and reliability of employee and participant data across systems.
- Developed Python scripts to automate data extraction, transformation, and loading (ETL) processes for HR reporting, reducing manual effort by approximately 30% for the analytics team.
- Managed production incidents and SLA adherence for enterprise applications, performing root cause analysis and implementing fixes within defined response times using **Splunk** and **Dynatrace**.

SKILLS

HR Systems – Workday, HRIS, Payroll, Benefits, Talent Management, Learning Management

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Validation, Data Quality Management, Business Intelligence

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs, Pandas, NumPy, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Methodologies & Tools – Agile, Scrum, Jira, Confluence, UAT, Change Management, Incident Response, Linux Shell Scripting

PROJECTS

Employee Data Integration & Quality Improvement (HCL Technologies)

- Designed and implemented a Python-based ETL pipeline to ingest and transform employee data from various sources into a centralized PostgreSQL database for reporting and analysis.
- Developed **Power BI dashboards** to visualize key HR metrics and identify data quality issues, enabling stakeholders to track trends and discrepancies more effectively.
- Collaborated with HR operations teams to validate data accuracy, reconcile discrepancies, and define requirements for automated data quality checks, reducing data error rates by 15%.

HR System Integration & Reporting Automation (HCL Technologies)

- Built **Java Spring Boot** RESTful APIs to facilitate data exchange between the HRIS and other enterprise systems, ensuring seamless integration and data consistency.
- Automated the generation of weekly employee status reports using Python scripting and SQL queries against Oracle databases, cutting down report generation time from 4 hours to 30 minutes.
- Provided post-production support for integrated HR systems, troubleshooting issues related to data flow and system performance in a production environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
