PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Processed daily stock plan transactions, including exercises, grant administration, and releases, managing associated file transmissions and operational controls for **equity compensation programs**.
- Executed participant requests and account maintenance, ensuring accuracy and adherence to established controls for **employee stock purchase plans** and related financial operations.
- Performed daily reconciliations and validation activities across internal systems and external vendor platforms, identifying and resolving discrepancies to maintain data integrity for **stock plan participants**.
- Coordinated with external vendors and internal business partners to resolve operational issues and support participant service needs, maintaining **audit-ready documentation**.
- Supported testing and implementation of annual stock plan activities and continuous improvement initiatives, enhancing operational efficiency and **reporting quality**.
- Managed daily imports and file transmissions, ensuring secure and timely data exchange between internal systems and external administrators for **equity plan administration**.
- Developed Python scripts to automate data validation and reconciliation processes for **stock compensation programs**, reducing manual effort by an estimated **15%**.

SKILLS

Stock Plan Administration – Equity Compensation Programs, Employee Stock Purchase Plans (ESPP), Stock Options, Restricted Stock Units (RSUs), Share Ownership Reporting, Trading Restrictions

Financial Operations & Analysis – Reconciliations, Data Validation, Transaction Processing, Operational Controls, Financial Reporting, Audit Support, Compliance

Data Management & Reporting – Data Exchanges, File Transmissions, Reporting Tools, Spreadsheets, Data Management Processes, Power Query (Excel)

Vendor & Stakeholder Management – External Vendor Coordination, Internal Business Partner Collaboration, Relationship Management, Communication

Technical Skills – Python, SQL, Excel, Power BI, Jira, Confluence, Linux Shell Scripting

PROJECTS

Equity Plan Operations Automation

- Developed Python scripts to automate the processing of daily grant administration files and participant data uploads, reducing manual processing time by **20%**.
- Implemented automated data validation checks using SQL queries against transaction logs to identify discrepancies before file transmission to external vendors.
- Created a set of automated reports in Power BI to provide stakeholders with daily updates on stock plan activity and operational control status.

Stock Compensation Data Reconciliation Tool

- Built a Python-based tool to reconcile employee stock transaction data between internal HR systems and external equity management platforms, identifying an average of **~12 discrepancies per week**.
- Designed and implemented data validation rules within the tool to flag common errors such as incorrect grant quantities or invalid participant IDs.
- Collaborated with the operations team to integrate tool output into their daily reconciliation workflow, ensuring timely resolution of data issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
