HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Delivered AI Fluency sessions to over 80 engineers across multiple teams, focusing on prompt engineering fundamentals and practical application of AI in daily tasks.
- Paired directly with 15+ development teams to integrate AI-assisted tools like **GitHub Copilot** and internal AI agents into their live delivery workflows, improving code generation efficiency by an estimated **18%**.
- Coached scrum masters and product owners on adopting AI-first methodologies, facilitating workshops that mapped AI potential to specific project outcomes and delivery cycles.
- Maintained and enhanced internal enablement tooling, including a suite of reusable **prompt templates** and workflow automations, reducing onboarding time for new AI tools by **30%**.
- Developed and delivered high-quality enablement content, such as practical guides and recorded tutorials on effective AI agent usage, adopted by over 50% of the engineering team within the first quarter.
- Collaborated with the Architecture and Platform teams to align AI enablement strategies with existing engineering standards and the broader system landscape, ensuring responsible AI adoption.
- Assessed AI maturity across 10+ delivery teams using a defined AI Fluency model, identifying key areas for targeted support and scaling successful patterns organization-wide.

SKILLS

AI & ML Tools – GitHub Copilot, Copilot CLI, Claude Code, AI agents, prompt engineering, LLM capabilities, agentic workflows

Software Engineering – Full SDLC, production systems, APIs, system design patterns, CI/CD, observability, infrastructure, engineering governance

Developer Experience – Developer enablement, technical coaching, developer productivity, adoption metrics, maturity models

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs, Shell scripting

Cloud & DevOps – AWS (EC2/S3/Lambda/CloudWatch), Docker, Jenkins, Git, Linux

Data & Analytics – Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn, DAX, Power Query, data modelling, data warehousing

Methodologies – Agile, Scrum, Change Management

PROJECTS

AI-First Engineering Enablement Platform (HCL Technologies)

- Designed and implemented a centralized platform for AI enablement resources, including reusable prompt libraries and workflow templates, supporting over 200 engineers.
- Developed Python-based automation scripts to streamline the deployment and management of internal AI agents, reducing manual intervention by approximately **40%**.
- Created comprehensive documentation and quick-start guides for AI tools, facilitating faster adoption and reducing support queries by **25%**.

Developer Productivity Toolkit with AI Assistance (HCL Technologies)

- Built a suite of integrated tools and scripts to enhance developer productivity, incorporating AI features for code completion and error detection.
- Integrated **GitHub Copilot** and custom AI agents into the team's development workflow, demonstrating tangible improvements in code quality and development speed.
- Provided hands-on training and pair-programming sessions for 8 engineers on effectively using the AI-powered toolkit, accelerating their integration into ongoing projects.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
