# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Provided **3rd level support** for complex **server and network issues**, resolving escalated tickets and minimizing system downtime for enterprise operations.
- Administered and configured **Azure** and **Microsoft 365** environments, ensuring optimal performance and alignment with evolving business requirements.
- Managed and coordinated system upgrades and enhancements for **Windows Server** infrastructure (2012-2020), including patching and configuration management.
- Implemented proactive monitoring strategies using tools like **Splunk** and **Dynatrace** to ensure high availability and performance across critical enterprise applications.
- Collaborated with 3rd party service providers to ensure timely delivery of projects and resolution of infrastructure-related incidents, maintaining service level agreements.
- Drove improvements in IT infrastructure resilience and protection against failure, implementing robust backup and recovery solutions across virtualised environments (**Hyper-V, VMWare**).
- Mentored a systems administration staff member, providing guidance on troubleshooting, system maintenance, and project support tasks.

## SKILLS

**Cloud Platforms** – Azure, Microsoft 365, AWS (EC2, S3, Lambda, CloudWatch)

**Server Administration** – Windows Server 2008/2012/2016/2020, Linux

**Virtualisation** – Hyper-V, VMWare

**Networking** – LAN, WAN, Firewalls, Switches, AP's

**Security** – CyberSecurity, Anti-Virus (McAfee EPO), Fortinet, Defender, zScaler

**Operations & Monitoring** – Splunk, Dynatrace, Solarwinds, AD Audit

**Core Technologies** – Java, Spring Boot, Python, SQL, Docker, Jenkins, Git

## PROJECTS

### Enterprise Infrastructure Monitoring Enhancement

- Implemented a comprehensive monitoring solution using **Splunk** and **Dynatrace** for a suite of Java Spring Boot applications, improving incident detection time by **30%**.
- Configured alert thresholds and dashboards to proactively identify performance bottlenecks and potential system failures within the production environment.
- Developed Python scripts to automate log aggregation and analysis, reducing manual effort in root cause investigation by approximately **2 hours** per critical incident.

### Windows Server Upgrade and Virtualisation Project

- Managed the upgrade of **Windows Server** instances from 2012 to 2019 across 50+ servers hosted on **VMware**, ensuring minimal disruption to business operations.
- Coordinated with internal teams and external vendors to plan and execute the migration of services, including database and application servers.
- Performed post-upgrade validation and performance tuning, contributing to a **15%** improvement in application response times for migrated systems.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
