## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Provided first-line support for **Windows 10/11** and **macOS** environments, resolving approximately **45 tickets per week** related to hardware, software, and OS issues.
- Managed end-user access requests, including provisioning new users, managing permissions, and supporting **Active Directory**, **Microsoft 365**, and **Exchange Online** groups.
- Troubleshot and resolved connectivity issues, performing root-cause investigations on network and application access problems before escalating complex issues to infrastructure teams.
- Assisted infrastructure and network teams with hands-on tasks across multiple office locations, supporting the deployment and maintenance of IT hardware and software.
- Created and maintained detailed **knowledge base articles** and support procedures, contributing to a **15% reduction** in recurring ticket escalations within the service desk.
- Monitored incident queues using a **service management platform**, ensuring adherence to agreed service levels and maintaining accurate ticket documentation for all reported issues.
- Supported routine IT administration tasks, contributing to continuous improvement initiatives across the service desk operations and enhancing user support processes.

## SKILLS

**Operating Systems** – Microsoft Windows, Apple macOS

**Cloud & Collaboration** – Microsoft 365, Exchange Online

**Directory Services** – Active Directory, User Provisioning, Permissions Management

**Hardware Support** – Dell Technologies, Printers, Mobile Devices

**Networking** – Cisco Networking (familiarity), DNS, Connectivity Troubleshooting

**Virtualization** – VMware (familiarity)

**ITSM Tools** – Service Desk Ticketing Platforms, Knowledge Base Management

## PROJECTS

### End-User Support Process Improvement (HCL Technologies)

- Developed and documented standardized troubleshooting guides for common hardware and software issues, reducing average resolution time by **20%** for the support team.
- Collaborated with the operations team to refine the incident escalation process, ensuring faster routing of complex issues to specialized infrastructure teams.
- Contributed to the creation of a comprehensive knowledge base, improving self-service resolution rates for end-users across the organization.

### Microsoft 365 User Onboarding Automation (HCL Technologies)

- Scripted Python automation for user provisioning and de-provisioning within Microsoft 365 and Active Directory environments, handling over **150 user accounts** monthly.
- Integrated scripts with ticketing system APIs to automate ticket creation and status updates during the onboarding and offboarding process.
- Ensured compliance with security policies by implementing role-based access control configurations during automated user setup.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
