PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **robust financial models** in Excel to support strategic planning and forecasting, analysing large datasets to identify key business drivers.
- Distilled complex financial and operational data into clear, insightful management information, identifying trends and translating them into actionable recommendations for senior leadership.
- Supported the annual budgeting, forecasting, and long-range planning processes by preparing detailed analysis and presentations for senior management.
- Assisted with financial modelling and analysis for potential acquisitions, including business cases and synergy assessments, and supported due diligence activities.
- Structured, analysed, and interpreted data from multiple sources to identify critical business insights, challenging assumptions to understand underlying drivers of performance.
- Managed multiple analytical workstreams simultaneously under tight deadlines, ensuring clear communication of complex financial and commercial issues to non-finance stakeholders.
- Worked cross-functionally with Finance, Commercial, and Operations teams to integrate acquired businesses and monitor performance against investment cases.

SKILLS

Financial Analysis – Financial Modelling, Strategic Planning, Forecasting, Budgeting, Long-Range Planning, Scenario Analysis, Sensitivity Analysis, M&A; Analysis, Business Cases, Investment Analysis, Acquisition Integration

Data Analysis & BI – Data Analysis, Data Interpretation, Management Information, Business Insight, Data Visualisation, Excel (Advanced), PowerPoint (Advanced)

Domain Knowledge – Corporate Finance, FP&A;, Private Equity, Business Performance Analysis, Value Creation Planning

Technical Skills – SQL, Power BI, Tableau, R, Python (pandas, NumPy, scikit-learn)

PROJECTS

Five-Year Strategic Financial Planning Model

- Developed a comprehensive **five-year financial model** in Excel to support strategic planning and value creation initiatives, integrating revenue forecasts, cost structures, and capital expenditure.
- Incorporated **scenario and sensitivity analysis** to assess the financial impact of key strategic decisions and market fluctuations, providing insights for risk mitigation.
- Collaborated with business unit leaders to gather inputs and validate assumptions, ensuring the model accurately reflected operational realities and strategic objectives.

Acquisition Due Diligence & Integration Analysis

- Performed **financial modelling and analysis** for potential acquisition targets, developing business cases and evaluating potential synergies and return on investment.
- Assisted in the **due diligence process** by analysing target company financial statements and operational data to identify key risks and opportunities.
- Developed tracking mechanisms to monitor post-acquisition integration performance against the original investment case, identifying key variances and required actions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
