HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices for backend systems, focusing on API development and inter-service communication.
- Implemented persistence layers using **Hibernate** and **JPA**, managing complex data relationships and ensuring data integrity for enterprise applications.
- Designed and coded object-oriented solutions in **Java**, adhering to design patterns and writing comprehensive unit tests with **JUnit** and **Mockito**.
- Participated in code reviews for peer engineers, providing constructive feedback to maintain code quality and enforce development standards.
- Collaborated with cross-functional teams to integrate new features, contributing to technical estimations and sprint planning sessions.
- Containerized backend services using **Docker**, enabling consistent deployment environments and simplifying the CI/CD workflow.
- Managed and automated data extraction and transformation tasks using **Python** scripting, supporting scheduled reporting and ETL processes.

SKILLS

Languages – Java, Python, SQL, C/C++, Verilog, VHDL, Tcl, Perl

Frameworks & Libraries – Spring Boot, Hibernate, JPA, scikit-learn, NumPy, pandas

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum

Tools – Jira, Confluence, Splunk, Dynatrace

Embedded Systems – Embedded Software Design, Verification

PROJECTS

Enterprise Java Service Orchestrator

- Built a **Java Spring Boot** application to orchestrate internal services, integrating with **PostgreSQL** for state management and logging.
- Developed RESTful APIs for external systems to interact with the orchestration layer, ensuring robust error handling and request validation.
- Implemented background job processing using **Spring Batch** to handle asynchronous tasks, improving system responsiveness for core operations.

Python Automation for System Monitoring

- Developed a suite of **Python** scripts to automate log analysis and system health checks across a fleet of servers, reducing manual effort by an estimated **40%**.
- Created data pipelines using **pandas** to aggregate monitoring metrics into actionable reports, providing insights into system performance trends.
- Integrated alerting mechanisms into the automation scripts using basic **shell scripting** to notify operations teams of critical issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
