PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and implemented process improvements for engineering and capital project delivery, focusing on streamlining workflows and enhancing efficiency.
- Designed and maintained digital solutions using **Power Apps** and **Power Automate** to support project teams in tracking performance and key metrics.
- Created interactive **Power BI dashboards** to visualise project performance data, enabling stakeholders to make informed decisions.
- Collaborated with **Project Managers** and **Project Directors** to identify opportunities for improving project delivery timelines and resource allocation.
- Supported the rollout of new digital tools and process changes across project teams, including the development of training materials.
- Contributed to the standardisation of project governance practices and workflows across multiple capital projects.
- Containerised core application services using **Docker**, deploying them to **AWS EC2** instances for improved scalability and manageability.

SKILLS

Microsoft Power Platform – Power BI, Power Apps, Power Automate

Project Management & Delivery – Process Improvement, Workflow Automation, Digital Transformation, Capital Projects, Project Governance

Data Analysis & Reporting – Dashboard Design, Performance Metrics, Data Visualisation, Stakeholder Reporting

Cloud & Containerisation – AWS, EC2, Docker

Programming & Scripting – Python, Java, SQL

Collaboration & Communication – Cross-functional Teams, Stakeholder Management, Training Initiatives

PROJECTS

Capital Project Performance Dashboard (HCL Technologies)

- Developed a comprehensive **Power BI dashboard** to track key performance indicators for a large-scale capital project, providing real-time insights into budget, schedule, and resource utilisation.
- Integrated data from multiple sources including project management software and financial systems using **Power Query**, automating ETL processes for cleaner reporting.
- Presented dashboard findings and performance trends to project stakeholders and leadership, facilitating data-driven decision-making and risk mitigation.

Workflow Automation for Project Documentation (HCL Technologies)

- Engineered automated workflows using **Power Automate** to streamline the creation and approval process for project documentation, reducing manual effort by an estimated **40%**.
- Designed a SharePoint site structure and permissions model to support the new documentation workflow, ensuring secure and organised storage of project-related assets.
- Collaborated with operations teams to gather requirements and refine the automation logic, ensuring seamless integration with existing project delivery processes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
