PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-line technical support for **internal staff** and **external clients**, resolving hardware, software, and network issues via phone, email, and remote assistance, managing an average of **15-20 support tickets daily**.
- Documented, categorized, and prioritized **support requests** using the firm's **service management platform**, ensuring timely escalation of unresolved technical issues to specialized teams.
- Assisted with the setup, configuration, and installation of **new hardware and software** across employee workstations, contributing to a smoother onboarding process for new hires.
- Performed routine system checks and updates on **Windows operating systems** and core **business applications**, contributing to overall system stability and performance.
- Collaborated with project teams on the rollout of new **software applications**, providing end-user support and documentation during deployment phases.
- Delivered basic user training and guidance on **IT best practices**, focusing on efficient use of **Microsoft Office 365** tools and secure computing habits.
- Analyzed and resolved **Linux system** issues through log analysis and shell scripting, ensuring operational continuity for backend services.

SKILLS

Operating Systems – Windows, Linux

Productivity Tools – Microsoft Office 365

Support Platforms – Service Management Platform, Jira, Confluence

Networking – Network Fundamentals, VPNs, Firewalls

Hardware/Software – Hardware Installation, Software Configuration, Application Support

Directory Services – Active Directory

PROJECTS

Enterprise System Support & Configuration

- Provided production support for **enterprise Java/.NET applications** using **Splunk** and **Dynatrace**, managing SLAs and responding to P1/P2 incidents.
- Automated data validation and reporting tasks using **Python scripting**, reducing manual effort by approximately **30%** for scheduled operational reports.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) across interconnected enterprise systems.

Client Desktop & Application Deployment

- Supported and integrated with **enterprise business systems**, including ERP modules, facilitating data flows across PostgreSQL and Oracle databases.
- Assisted in the setup and deployment of **new software applications** to client environments, ensuring successful integration and user adoption.
- Documented troubleshooting steps and resolutions for common client IT issues, contributing to an internal knowledge base that reduced average ticket resolution time by **15%**.
