PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collaborated with SMEs in AS and MFS to design and deploy custom **Workbook templates**, aligning data entry with equipment and material data for seamless integration.
- Registered **laboratory equipment** (AS and MFS) to iLab via **Unified Laboratory Module (ULM)**, supporting calibration and data transfer workflows.
- Implemented **sample management and material-reagent inventory tracking** for MFS and AS, ensuring linkage to the Workbook to eliminate manual transcription.
- Developed and delivered **user training** sessions for new digital workflows, gathering feedback to enhance user experience and drive adoption.
- Acted as a liaison between AS, MFS, local IT, and ITS Digital teams to facilitate communication and ensure alignment on digital transformation goals.
- Identified and mitigated project **roadblocks**, including server performance issues and data import challenges, to maintain project timelines.
- Containerised **Java Spring Boot applications** and deployed them to **AWS EC2 instances**, managing CI/CD pipelines using **Jenkins** for automated builds and deployments.

SKILLS

Laboratory Systems – iLab BIOVIA Workbook Foundation, Unified Laboratory Module (ULM), CisPro, Caducee Integration

Project Management – Roadmap Delivery, Task Tracking, Timeline Management, Milestone Reporting, Risk Mitigation

Data Management – Sample Management, Material Inventory, Data Integration, Transcription Error Reduction

Software Development – Java, Spring Boot, REST APIs, SQL, Python Scripting, Docker, AWS

Collaboration & Training – Stakeholder Engagement, Cross-functional Teams, User Training, Feedback Gathering, SME Collaboration

Process Improvement – Digital Workflow Implementation, Paperless Processes, Data-Driven Workflows, Analytical Sciences (AS), Manufacturing Sciences (MFS)

PROJECTS

Digital Laboratory Workflow Implementation (iLab BIOVIA Workbook)

- Designed and implemented custom **Workbook templates** for Analytical Sciences (AS) and Manufacturing Sciences (MFS) teams, integrating raw data and Excel files.
- Managed the registration of **laboratory equipment** and materials within the **Unified Laboratory Module (ULM)** and **CisPro** systems to support sample tracking.
- Developed training materials and conducted sessions for end-users on the new digital workflows, focusing on reducing transcription errors and improving data integrity.

Automated Data Integration Pipeline

- Engineered **Python scripts** to automate the extraction, transformation, and loading (ETL) of data from disparate sources into a central repository.
- Developed **REST APIs using Java Spring Boot** to facilitate data exchange between the new digital laboratory systems and existing enterprise applications.
- Implemented **SQL queries** to validate data integrity and perform schema transformations across PostgreSQL and Oracle databases.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
