HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and troubleshot **laboratory IT systems** and applications including **LIMS** and **Empower** for enterprise clients, resolving **user access** and **software configuration** issues within a **regulated environment**.
- Automated routine data extraction and reporting tasks for laboratory operations using **Python scripting**, reducing manual effort by approximately **15 hours per week**.
- Supported and maintained system integrations between **laboratory instruments**, databases, and enterprise systems, ensuring seamless **data flow** across interconnected platforms.
- Assisted with **database management** tasks, including performing regular **backups** and monitoring system performance to maintain data integrity.
- Created and updated comprehensive **system documentation**, including **standard operating procedures (SOPs)** and user guides, to facilitate knowledge transfer and user training.
- Configured and maintained **system settings**, **user roles**, and security controls, ensuring adherence to stringent **compliance policies** like **GMP** and **Data Integrity**.
- Coordinated and executed system upgrades and patches for critical laboratory applications, ensuring minimal disruption to ongoing **lab operations** and maintaining system availability.

SKILLS

Laboratory Systems – LIMS, Empower, FTIR, UV, Laboratory Software

Database Management – SQL, PostgreSQL, MySQL, Oracle, Database Backups, Monitoring

Scripting & Automation – Python, Shell Scripting

System Administration – User Access Management, Software Configuration, System Settings, User Roles, Security Controls

Compliance & Documentation – GMP, Data Integrity, Cybersecurity, SOPs, System Validation, Audit Support

Core Technologies – Java, Spring Boot, REST APIs, AWS, Docker, Linux, Jenkins, Jira, Confluence

PROJECTS

Laboratory Information Management System (LIMS) Enhancement

- Enhanced an existing **LIMS** by developing custom **Python scripts** to automate data import from instrument outputs, improving data capture efficiency by approximately **20%**.
- Collaborated with laboratory users to gather requirements for new reporting functionalities, translating them into technical specifications for system configuration changes.
- Documented the updated system workflows and provided training sessions for laboratory personnel on new features and best practices for data entry.

Enterprise System Integration for Lab Data Flow

- Managed the integration of a key **laboratory application** with an **enterprise system** using **REST APIs**, ensuring reliable **data flow** for downstream analytics.
- Developed **SQL queries** for data validation and troubleshooting integration issues, confirming data consistency across systems.
- Participated in testing cycles for the integration, providing feedback and support to ensure successful deployment and adherence to **data integrity** standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
