PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Reviewed and accurately labelled large volumes of online content, adhering strictly to established content policies and guidelines to support AI model training.
- Analyzed content trends and labelling patterns to identify potential quality issues and areas for system improvement, communicating findings to cross-functional teams.
- Monitored **Large Language Model (LLM)** performance, identifying inconsistencies and bugs that informed prompt and model refinement efforts.
- Collaborated with **Engineering**, Policy, and Data Science teams to enhance content review processes and detection systems through data-driven insights.
- Developed and communicated analytical insights from data labelling trends to both technical and non-technical stakeholders, supporting operational performance improvements.
- Contributed to process enhancement initiatives within Integrity Operations, focusing on improving efficiency, accuracy, and overall quality of content moderation workflows.
- Wrote **Python scripts** to automate aspects of data analysis and reporting for content moderation workflows, reducing manual effort by approximately **15%**.

SKILLS

Content Analysis – Content Labelling, Data Annotation, Quality Assurance, Trend Analysis, LLM Evaluation

Data Analysis & BI – SQL, Data Visualisation, Data Analysis, Trend Identification, Insight Generation

Programming & Scripting – Python, Shell Scripting

Collaboration & Communication – Stakeholder Communication, Cross-functional Collaboration, Process Improvement, Technical Documentation

AI & Machine Learning – AI Systems, LLM Performance Monitoring, AI-Assisted Workflows

PROJECTS

AI Content Moderation System Analysis

- Analyzed over 10,000 content items for a pilot AI moderation system, applying detailed labelling criteria to assess accuracy and identify systemic biases.
- Developed a **Python script** to aggregate labelling metrics and identify outlier content types, flagging approximately **8%** of items for manual policy review.
- Generated a summary report detailing observed trends in model performance and proposed specific adjustments to content policies for improved detection rates.

Data Labelling Quality Assurance Framework

- Designed and implemented a quality assurance framework for data labelling tasks, establishing clear guidelines for consistency and accuracy.
- Conducted regular audits on labelled datasets, identifying and rectifying labelling discrepancies to maintain high standards for **AI model training**.
- Prepared documentation and training materials for new analysts on content policy interpretation and effective labelling techniques.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
