PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and supported **SAP MM** modules, focusing on procurement and inventory management processes for a global manufacturing client.
- Developed and maintained **Java Spring Boot** REST APIs to integrate SAP MM with external supplier management systems, improving data synchronization for **3,000+** suppliers.
- Automated data validation and reconciliation workflows using **Python** scripts, reducing manual effort by approximately **20%** for cross-system data checks.
- Collaborated with business stakeholders and analysts to gather requirements for SAP enhancements, translating them into technical specifications for system configuration and development.
- Participated in system testing and validation cycles for SAP S/4HANA migration initiatives, executing regression test plans and documenting defect resolutions.
- Provided application management and production support for SAP SD and FI/CO modules, investigating and resolving P1/P2 incidents to maintain system performance.
- Containerized SAP integration middleware using **Docker** and deployed to an **AWS EC2** environment, streamlining deployment processes for new integration services.

SKILLS

SAP Modules – SAP MM, SAP SD, SAP FI/CO, SAP PP, SAP WM/EWM, SAP S/4HANA

Integration – SAP Integration, REST APIs, System Integration

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, Hibernate, pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Change Management

PROJECTS

SAP MM and Integration Layer Development

- Engineered integration points between SAP MM and a third-party procurement platform using **Java Spring Boot** and **REST APIs**, enabling automated purchase order creation for over **5,000** material types.
- Developed **Python** scripts to automate the extraction, transformation, and loading of supplier master data from legacy systems into SAP MM, reducing data entry errors by an estimated **15%**.
- Configured SAP MM workflows for purchase requisition approval and goods receipt processing, aligning system functionality with internal procurement policies.

Automated SAP Reporting and Data Validation

- Built a **Python**-based ETL pipeline to aggregate data from SAP SD and FI/CO modules into a data warehouse for enhanced business intelligence reporting, processing approximately **10,000** records daily.
- Developed automated data validation checks using **SQL** queries against PostgreSQL, identifying and flagging discrepancies in order management and financial data with a **98%** accuracy rate.
- Created interactive dashboards in **Power BI** to visualize key performance indicators derived from SAP data, providing actionable insights to the sales and finance operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
