PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Led forensic investigations into drug product defects, documenting findings to **cGMP standards** and contributing to extensive defect panels for visual inspection equipment.
- Managed the upkeep and distribution of defect panels, ensuring accurate characterisation for automated and semi-automated visual inspection systems across vial and syringe packaging.
- Participated in cross-functional teams to support the broader Attribute Sciences function, contributing to program objectives and process improvements.
- Executed and documented analytical data within an **electronic notebook system**, maintaining high standards for laboratory housekeeping and inventory control.
- Supported the Change Control and Variation Management Process, coordinating documentation and contributing to process optimisation initiatives.
- Assisted in peer reviews of analytical data and ensured compliance with Standard Operating Procedures for the Attribute Sciences Laboratory.
- Applied **statistical tools** and problem-solving techniques to aid troubleshooting efforts in defect identification and root cause analysis.

SKILLS

Pharmaceutical Industry – Drug product defects, Visual inspection equipment, cGMP, Regulatory inspections, Analytical methods, Change Control, Variation Management

Data Analysis & Tools – Statistical tools, Multivariate analysis, Electronic notebook system, Laboratory Information Management System (LIMS)

Laboratory Operations – Forensics, Defect identification, Sample inventory control, Laboratory housekeeping, Process development, Continuous Improvement Process

Project & Teamwork – Cross-functional teams, Problem-solving tools/techniques, Planning/organisation, Teamwork, Flexibility, Coaching

Compliance & Safety – Standard Operating Procedures (SOPs), GMP, Laboratory Investigations, Deviations, PMAFs, Safety, Environmental awareness

PROJECTS

Drug Product Defect Analysis & Panel Management (HCL Technologies)

- Developed and maintained a comprehensive database of drug product defects, categorising visual anomalies for use in training and characterising automated inspection systems.
- Automated data aggregation from laboratory instruments into a central repository, reducing manual data entry time by **~30%** and improving data integrity.
- Collaborated with quality assurance teams to validate defect classifications and ensure adherence to **cGMP standards** in all documentation and processes.

Analytical Method Validation & Troubleshooting Support (HCL Technologies)

- Supported the validation of new analytical methods by executing test protocols and documenting results meticulously in the **electronic laboratory notebook**.
- Assisted in troubleshooting analytical method performance issues, applying structured problem-solving approaches to identify root causes and recommend corrective actions.
- Contributed to process improvement initiatives by documenting standard operating procedures for common analytical tasks, enhancing consistency across the team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
