# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Designed and implemented **Python** data pipelines on **AWS Lambda** and **S3** to process ~3,500 events/sec, replacing a legacy batch job for an internal anti-abuse workflow.
- Evaluated **AI-generated responses** for factual accuracy and tone, providing human feedback to refine foundational models and improve alignment with annotation guidelines.
- Developed **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns to enhance system resilience.
- Executed **QA evaluations** across diverse datasets, performing named entity recognition and content safety labeling for NLP and computer vision systems.
- Containerised **Python** services using **Docker** and deployed them to an **AWS EKS** cluster, configuring Helm charts and resource limits for predictable rollouts.
- Troubleshot edge cases in **prompt engineering** and optimized data annotation workflows by collaborating with remote teams and global annotation vendors.
- Managed **production support** for enterprise applications, responding to P1/P2 incidents using **Splunk** and **Dynatrace**, and ensuring SLA adherence.

## SKILLS

**AI/ML** – LLM Evaluation, RLHF, Prompt Engineering, NLP, Computer Vision Annotation, Named Entity Recognition, Content Safety Labeling

**Programming Languages** – Python, Java, SQL, R

**Frameworks & Libraries** – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI, LangChain

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes (EKS), Jenkins, Git, CI/CD

**Databases** – PostgreSQL, MySQL, Oracle

**BI & Data Visualization** – Power BI, Tableau, DAX, Power Query

## PROJECTS

### AI Model Training Data Quality Assurance

- Developed a **Python** script to automate the evaluation of **LLM-generated responses** against a predefined set of quality and safety criteria.
- Executed complex data labeling tasks, including **named entity recognition** and content classification for a 50,000-record dataset, achieving **97% annotation guideline compliance**.
- Integrated with an internal API to fetch and process raw AI outputs, surfacing flagged items for manual review in a **Jira** ticket queue.

### Customer-Facing AI Onboarding Pipeline

- Built a **FastAPI** service to ingest and validate customer-provided data for AI model fine-tuning, handling over 1,500 requests per day.
- Collaborated with customer engineering teams to define data requirements and troubleshoot integration issues during the onboarding process.
- Packaged the pipeline components as Docker containers, facilitating seamless deployment to client-side Kubernetes environments.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
