PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Led onsite and remote installation, configuration, and testing of Roche IT portfolio solutions, including **navify LAB Advantage** and **Digital Pathology** systems for enterprise customers.
- Provided high-level technical support for complex IT systems and solutions, diagnosing and resolving issues remotely via **Thingworxs** and through onsite customer visits.
- Performed critical software upgrades and system adjustments, verifying and approving the operational quality of installed equipment to ensure sustainable system performance.
- Acted as a primary technical support contact for assigned strategic accounts, managing complex problem escalations and ensuring timely feedback and proactive updates to customers.
- Conducted comprehensive onsite training for healthcare professionals, serving as a 'Key User' and rollout leader for customer-facing portals and new system implementations.
- Maintained precise records of cases, incidents, and project progress within the **Rexis CRM** system, strictly adhering to **ISO** and company standards for documentation and compliance.
- Collaborated with Sales, Service, and Marketing teams on digital initiatives, ensuring local requirements were integrated into global best practices for cross-functional synergy.

SKILLS

Product Support & Implementation – System Installation, Configuration, Testing, Software Upgrades, System Optimization, Lifecycle Management, Customer Training, Key User Role, Rollout Leadership, Technical Negotiations, Problem Escalation, Compliance Adherence

IT & Systems – Roche Information Solutions Portfolio (RIS), navify POC Operations, navify LAB Operations, navify LAB Advantage, Digital Pathology, Thingworxs, Rexis CRM, IT Projects, Network Integration

Technical Skills – Remote Support Tools, Onsite Support, LAN Network Troubleshooting, TCP/IP, FTP, HL7, ASTM, ADT Interfacing

Compliance & Quality – ISO Standards, Occupational Safety, SOP Adherence, Data Protection, Governance, Quality Standards

PROJECTS

Enterprise IT System Deployment for Healthcare Client

- Managed the end-to-end deployment of an enterprise IT system for a major healthcare client, coordinating installation, configuration, and user acceptance testing across multiple departments.
- Developed and delivered comprehensive training materials and sessions for end-users and IT staff, ensuring successful adoption and proficiency with the new system's functionalities.
- Established a proactive monitoring framework using **Splunk** and **Dynatrace** to track system health, leading to a **15% reduction** in critical incident response times for the client.

Customer Portal Rollout and Training Program

- Led the rollout of a new customer-facing portal, acting as the primary technical point of contact for pilot users and gathering feedback for iterative improvements.
- Designed and executed a multi-week training program for customer teams, covering system navigation, feature utilization, and troubleshooting common issues, resulting in **over 90% user satisfaction**.
- Documented best practices and created user guides based on customer interactions, which were integrated into the standard onboarding process for subsequent clients.
