## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Resolved approximately 15-20 end-user IT incidents per week, including hardware malfunctions, software configuration issues, and network connectivity problems, within a large enterprise environment.
- Managed and prioritized a queue of over 50 service requests daily using an enterprise ticketing system, ensuring timely resolution in line with agreed SLAs.
- Supported routine infrastructure operations by monitoring system health and participating in initial troubleshooting activities for common technical issues.
- Maintained accurate and up-to-date infrastructure documentation, including standard operating procedures for common tasks and system configurations.
- Installed, configured, and troubleshot hardware (desktops, laptops, printers) and software applications across Windows and macOS operating systems.
- Collaborated with IT Infrastructure team members to address daily operational challenges and contribute to continuous improvement initiatives.
- Assisted with the deployment of new hardware and software, ensuring proper setup and user guidance in a client-facing capacity.

## SKILLS

**IT Support** – Deskside Support, Onsite IT Support, Site Services Support, Incident Management, Service Requests, SLAs, ITSM, Ticketing Systems.

**Operating Systems** – Windows, macOS, Linux (Basic Shell Scripting).

**Hardware Troubleshooting** – Desktops, Laptops, Printers, Peripherals.

**Software Troubleshooting** – Application Configuration, OS Issues, Network Connectivity.

**Infrastructure Knowledge** – IT Infrastructure, System Monitoring, Documentation Maintenance, Health and Safety Policies.

**Soft Skills** – Communication, Customer Service, Problem-Solving, Collaboration, Task Management.

## PROJECTS

### Enterprise Desktop Support Enhancement Initiative

- Streamlined the process for handling common hardware issues, reducing average resolution time for desktop replacements by 20% through better parts management.
- Developed a standardized checklist for new user onboarding, ensuring all necessary software and access permissions were configured before user start dates.
- Assisted in the deployment of over 100 new workstations across multiple departments, coordinating with end-users to minimize disruption.

### IT Service Management Process Improvement

- Contributed to the updating of knowledge base articles within the enterprise ticketing system, focusing on common software troubleshooting steps.
- Participated in daily stand-ups to discuss ongoing incidents and prioritize tasks based on business impact and SLA adherence.
- Supported the implementation of a new asset tracking system, ensuring accurate record-keeping for deployed IT equipment.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
