PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Reviewed and optimised customer workflows for a regional airline's contact center, identifying inefficiencies and proposing improvements that reduced average handling time by **15%**.
- Translated business needs into clear, actionable **business requirements** and user stories for the **CS Transformation** team, ensuring alignment with strategic goals for scaling operations.
- Supported the design and development of **AI** and **Generative AI** solutions for customer service automation, enhancing self-service capabilities and automating workflows.
- Analyzed **customer data**, including incoming chats and calls, to identify trends, spikes, and repeat issues, providing insights that flagged necessary improvements for **contact center** operations.
- Collaborated with third-party suppliers and internal system experts to deliver **automation solutions** and implement changes within the customer service technology stack.
- Prepared detailed progress reports and outcome summaries for **management**, communicating project updates and key performance indicators for the CS Transformation initiative.
- Containerized and deployed several Java Spring Boot microservices to an **AWS** EKS cluster, managing CI/CD pipelines with **Jenkins** and ensuring efficient resource utilisation.

SKILLS

Business Analysis – Business Requirements, Workflow Analysis, Process Improvement, Stakeholder Management, UAT, Agile Methodologies

AI/GenAI – Generative AI, AI Solutions, Automation, Self-Service Tools

Data Analysis – Customer Data Analysis, Trend Identification, Insight Generation, Data Insights, Microsoft Office Suite

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS, Docker, Jenkins, CI/CD, Linux

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Contact Center Workflow Automation (HCL Technologies)

- Designed and implemented automated workflows for a financial services client's customer service operations, focusing on streamlining transaction dispute resolution processes.
- Developed Python scripts to parse and analyze incoming customer query logs, identifying patterns in common issues and informing the design of new self-service AI tools.
- Created detailed documentation and training materials for the implemented automation features, facilitating user adoption by the client's operations team.

Customer Data Insights Dashboard (MSc Project)

- Built an interactive dashboard using **Power BI** to visualize key customer service metrics, including call volume, resolution times, and customer feedback trends.
- Extracted and transformed data from multiple sources using **Power Query** and modeled relationships within Power BI to support ad-hoc analysis and reporting for business stakeholders.
- Applied statistical analysis techniques in **R** to identify correlations between customer interaction types and satisfaction scores, presenting findings to academic supervisors.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
