PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the production support and incident response for enterprise applications, ensuring adherence to strict SLAs and resolving P1/P2 incidents within defined timeframes.
- Developed Python scripts for automating data ingestion and ETL processes, enhancing the efficiency of data pipelines for scheduled reporting by approximately **30%**.
- Executed complex SQL queries across PostgreSQL and Oracle databases for data validation, ad-hoc analysis, and schema modifications to support system updates.
- Contributed to feature development and bug fixes for Java Spring Boot services, designing and implementing REST APIs for cross-service communication.
- Supported integration and change management for enterprise business systems, coordinating UAT and post-go-live activities for interconnected platforms.
- Provided telephone and email support to Ryanair European Airports and Call Centers, addressing issues related to the Newskies reservations system.
- Updated web notices on Ryanair.com and created ad-hoc disruption videos for the Day of Travel App to inform passengers of schedule changes.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, Linux, Git, Jenkins

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Support Tools – Splunk, Dynatrace, Jira, Confluence

Data Analytics & BI – Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn

Domain Knowledge – Payments Operations, Transaction Monitoring, ERP Systems, GDPR Compliance

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Managed production support for critical enterprise applications, including monitoring via **Splunk** and **Dynatrace**, and leading incident response efforts for P1/P2 issues.
- Automated data extraction and transformation tasks using Python scripts, reducing manual effort and improving data pipeline efficiency for operational reporting.
- Developed and maintained Java Spring Boot microservices, focusing on REST API development and integrating with PostgreSQL databases for core business logic.

MSc Data Analytics Applied Project (NCI)

- Designed and built interactive **Power BI** dashboards to visualize key performance indicators for a simulated business process, incorporating DAX measures and Power Query for data transformation.
- Performed statistical analysis using R and Python (pandas, NumPy) on large datasets to identify trends and inform decision-making, including exploratory data analysis and hypothesis testing.
- Developed data models and ETL processes within the MSc curriculum, applying data warehousing concepts to prepare data for analytical consumption and reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
