HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented access control policies and automation scripts for a **Salesforce platform**, reducing manual access request processing time by **45%**.
- Applied **AI tools** to streamline repetitive administrative tasks, identifying and automating **15+ distinct workflows** across the team's operational processes.
- Partnered with and mentored **8 teammates** on adopting **AI-first approaches** to problem-solving, leading to a demonstrable increase in their feature delivery velocity.
- Owned the full outcome of AI-generated suggestions and code snippets, rigorously validating **output correctness**, security compliance, and adherence to team standards.
- Developed and maintained software solutions on the **Salesforce platform**, including custom object configurations and Apex code reviews for peer solutions.
- Collaborated with cross-functional teams to gather requirements and deliver features, ensuring alignment with business objectives and technical feasibility.
- Deployed containerized applications using **Docker** to a cloud environment, managing configuration and ensuring smooth integration with existing infrastructure.

SKILLS

Salesforce Platform – Salesforce Certified Administrator, Advanced Administrator, Platform App Builder, Declarative Development, Apex Code, Custom Objects, Access Governance, JIT Access, SOX Scoped Orgs

AI & Automation – AI Tools, Generative AI, Automation Scripting, Workflow Automation, Prompt Engineering, AI Output Validation

Software Engineering – Java Spring Boot, Python, REST APIs, Microservices, Docker, CI/CD, Jenkins, Git, Agile Methodologies, Scrum

Data & Analytics – Power BI, Tableau, DAX, SQL, Data Warehousing, ETL, Data Modelling, Pandas, NumPy, R

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting

PROJECTS

Salesforce Access Governance Automation

- Engineered an **automation solution** within the **Salesforce platform** to manage user access requests, reducing manual intervention by **40%** for standard roles.
- Developed Python scripts to interface with the Salesforce API, automating the creation and revocation of user permissions based on predefined policies.
- Implemented a **JIT access workflow** for sensitive data modules, ensuring compliance and minimizing the attack surface for **enterprise users**.

AI-Assisted Workflow Optimization for Operations

- Designed and implemented an **AI-first workflow** using generative AI tools to assist with repetitive operational tasks, improving team efficiency by an estimated **20%**.
- Validated and refined AI-generated code snippets and documentation for technical accuracy and adherence to **Salesforce best practices**.
- Created a reusable library of **prompt templates** for common operational queries, enabling teammates to leverage AI effectively for daily tasks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
