PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal services, handling over 500 requests per minute.
- Implemented **Hibernate** ORM for data persistence layer interactions with PostgreSQL, ensuring efficient data retrieval and updates across core modules.
- Designed and executed **JUnit** test suites for Java applications, achieving 85% code coverage and identifying critical edge cases prior to deployment.
- Collaborated with cross-functional teams to gather requirements for new solution features, translating business needs into technical specifications for the engineering team.
- Configured and managed **CI/CD pipelines** using Jenkins and Git, automating build, test, and deployment processes for enterprise applications.
- Provided technical guidance and conducted **code reviews** for junior engineers, ensuring adherence to coding standards and best practices.
- Containerized **Java applications** using Docker and deployed them to AWS EC2 instances, managing container lifecycles and basic scaling configurations.

PROJECTS

Enterprise Java Application Modernisation

- Refactored legacy Java modules into a **Spring Boot** microservices architecture, improving system modularity and maintainability.
- Integrated **Hibernate** with **PostgreSQL** to manage complex transactional data, reducing query execution times by an average of 30% for key reports.
- Developed comprehensive **REST APIs** to facilitate inter-service communication, enhancing data flow and integration capabilities across the platform.

Customer Solution Demonstration Platform

- Built a **Java Spring Boot** application to showcase core product functionalities to potential clients, incorporating interactive elements based on customer requirements.
- Designed and delivered technical demonstrations of the platform to prospective enterprise customers, highlighting key features and integration points.
- Collaborated with sales teams to understand client pain points and tailor **solution demonstrations** to address specific business challenges, leading to successful proof-of-concept engagements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
