HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns to enhance system resilience.
- Developed and maintained **Hibernate** entities and JPA queries for complex data retrieval and manipulation, ensuring efficient interaction with relational databases across multiple enterprise systems.
- Authored **JUnit** test suites and utilized **Mockito** for mocking dependencies, achieving over **85% code coverage** for new feature development within an Agile Scrum framework.
- Collaborated with product managers and enterprise customers to gather technical requirements for new solution features, translating business needs into actionable development tasks for the engineering team.
- Delivered technical demonstrations of **Salesforce solutions** to prospective clients, articulating value propositions and addressing complex technical questions during pre-sales engagements.
- Constructed **Python scripts** to automate the generation of operational reports and data transformation tasks, reducing manual effort by approximately **15 hours per week**.
- Containerized backend services using **Docker** and deployed them to an **AWS EKS** cluster, configuring basic resource limits and monitoring with **CloudWatch**.

SKILLS

Languages – Java, Python, SQL, R, English, Arabic

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch, EKS), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, RStudio

Methodologies – Agile, Scrum

PROJECTS

Enterprise Solution Configuration Tool (HCL Technologies)

- Developed a **Java Spring Boot** application providing a RESTful interface for configuring enterprise systems, integrating with **PostgreSQL** to persist configuration data.
- Implemented a **JPA** data access layer to manage system settings and user permissions, supporting dynamic updates without requiring application restarts.
- Designed and built a basic administration UI using **React** for managing configurations, enabling non-technical users to update system parameters.

Customer Onboarding Automation Framework

- Created a **Python**-based framework to automate the initial setup and configuration for new enterprise customers integrating with our platform, reducing onboarding time by **30%**.
- Developed interactive CLI tools using **FastAPI** to guide customer technical teams through data mapping and integration steps, capturing requirements and validating inputs.
- Authored comprehensive technical documentation and ran two post-sales workshops for customer engineering teams, detailing best practices for system integration.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
