PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal services, processing approximately **1,500 requests per minute** during peak hours.
- Designed and implemented **Hibernate/JPA** entities and queries to manage relational data persistence for core application modules, ensuring data integrity across complex transactional workflows.
- Wrote comprehensive **JUnit** and **Mockito** tests for new Java features, achieving over **85% code coverage** for critical business logic components.
- Collaborated with customer engineering teams to gather requirements for technical demonstrations and proof-of-concept solutions, translating business needs into actionable technical designs.
- Assisted in the creation of **customer demonstrations** by configuring and customizing demo environments, showcasing platform capabilities to prospective clients.
- Participated in **sprint planning** and **technical estimation** sessions, contributing to the team's agile development process and feature backlog prioritization.
- Containerized **Java Spring Boot** applications using **Docker** and deployed them to an **AWS EC2** environment, managing container lifecycles and basic resource allocation.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum, CI/CD

Data Analytics & BI – Data Modelling, DAX, Power Query, Data Warehousing, Statistical Analysis

PROJECTS

Enterprise Java Service Orchestration

- Developed a suite of **Java Spring Boot** microservices to orchestrate complex business workflows, integrating with multiple downstream systems via REST APIs.
- Implemented robust error handling and retry mechanisms using **JPA** and **Hibernate** for transactional data consistency across service calls, reducing data discrepancies by **15%**.
- Containerized the microservices with **Docker** and established basic CI/CD pipelines using **Jenkins** for automated testing and deployment to **AWS EC2** instances.

Customer-Facing Technical Solution Design

- Designed and documented a technical solution for a pilot enterprise customer, mapping their business requirements to platform features and integration points.
- Created interactive **Power BI** dashboards to visualize key performance indicators for the customer's operational data, enabling data-driven decision-making.
- Presented the proposed solution and demonstration to the customer's technical stakeholders, gathering feedback and iterating on the design to ensure alignment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
